

Chances Not Bright For Li Tsung-Jen's Ghost Government

Hopes Dim For Chinese Communist Peace

By HAROLD K. MILKS
Nanking, Feb. 3 (AP)—The chances of acting President Li Tsung-Jen's ghost government for national peace and continued American economic aid were none too bright today.

Li was given almost no chance of arranging a national peace with the Communists. At best he might succeed in surrendering Nanking, Shanghai, Hankow and the lower Yangtze river valley. If he does this, American Economic Cooperation Administration aid is likely to be withdrawn. ECA offices in Red held Peiping and Tientsin are closed now.

Li's government is scattered and ineffective. He is almost alone here. His cabinet officers headed for Canton, where they are supposed to reopen for business on Saturday. But Li plans to hang on here, maybe even daring everything on a flight to the Communists to beg for peace.

Even the status of the Canton government is uncertain. Kwangtung Governor Hsueh Yueh at Canton was quoted in press dispatches today as saying he had no formal notification of the government would be shifted there.

Hsueh said earlier in the week the four big southern provinces of Kwangtung, Fukien, Hunan and Kwangsi would fight on regardless of what Li did in the north.

Gov. Williams Loses First Senate Test

Labor Appointment Meets Undercover Opposition

Lansing, Feb. 3 (AP)—Governor Williams' much-touted "bi-partisan" government broke down in its first test Wednesday as the G. O. P.-controlled Senate refused to confirm his appointment of Kempton A. Williams as chairman of the state unemployment compensation commission.

The governor made no immediate comment on the rejection of his most definite "labor" appointment.

Kempton Williams, no relative of the governor, is secretary of the United Governmental Workers, an independent union which is seeking a CIO charter and which has organized employees of the unemployment compensation commission.

The rejection was voted in a secret session but leaks indicated that Kempton Williams was turned down by a 19 to 8 vote, divided strictly on party lines.

(Much of the undercover opposition to Kempton Williams reportedly stemmed from his position as a labor organizer and his activities in various large Saginaw valley strikes 12 years ago.)

Reports seeping from the closed session indicated that Republican senators argued that Kempton Williams had no administrative training and might dissipate the state's \$293,000,000 unemployment compensation fund.

Icebreaker Called To Bring Food For Mackinac Island

Lansing, Feb. 3 (AP)—The icebreaker ferry, Ste. Marie, has been ordered to break through from St. Ignace to Mackinac Island with food supplies, Highway Commissioner Charles M. Ziegler said yesterday.

Regular boat service to the island had to be halted several weeks ago because of heavy ice in the Straits of Mackinac. Ziegler said he was informed the island was beginning to run out of food.

Weather

Reported by U. S. Weather Bureau

UPPER MICHIGAN: Decreasing cloudiness in the southwest portion and light snow in the north and east portions this evening, becoming generally clear and quite cold by Friday morning. Fair and cold Friday.

ESCANABA AND VICINITY: Decreasing cloudiness, snow ending by evening and clearing with falling temperature tonight, wind northerly around 10 mph. Friday fair and continued cold, wind northeasterly 10 to 15 mph. High 15, low 5.

Odds Are Against Passage Of State Corporation Levy

Lansing, Feb. 3 (AP)—The odds were counted against enactment of Governor Williams' so-called corporation income tax today, but legislators generally were cautious in their comments.

Business lobbyists moved quickly to head off the governor's proposal, although some legislators hinted that large corporation executives would rather see their corporations taxed than pay more personal income taxes themselves.

An informal sampling of legislative opinion suggested that the House of Representatives was

Truman Labor Bill Gets CIO Approval

Powers To Block Strikes Disputed In Congress

By MARVIN L. ARROWSMITH
Washington, Feb. 3 (AP)—The CIO today endorsed the Truman labor bill. Meanwhile, there was furious new debate in Congress over whether the measure would enable the government to block critical strikes.

Said CIO General Counsel Arthur Goldberg: "It appears that the bill offers the only practicable method of obtaining speedy Taft-Hartley repeal and re-enactment of the substantive provisions of the Wagner Act."

Attorney General Clark touched off the new row over whether the government could obtain court orders to prevent "national emergency" strikes if the Taft-Hartley 80-day injunction provision is junked.

The administration measure would substitute a 30-day cooling off procedure. There is no provision in the bill for court orders or any other legal step to enforce presidential requests that workers stay on the job while emergency board try to settle disputes.

Last night, Clark sent the Senate labor unit a letter saying that the president has "inherent powers" which are "exceedingly great" and that "in appropriate circumstances" he could use them to obtain strike-blocking injunctions.

Clark's opinion, read at a rousing, boisterous evening session of the committee, was sharply disputed by the Republican members.

Pilot Flies 8,000 Miles From Tokyo For Court Hearing

Cleveland, Feb. 3 (AP)—An air force pilot who flew 8,000 miles from Tokyo to make a court appearance may be a witness here today in a federal court damage suit.

He is Captain Lawrence R. Lockwood, 27, of Lansing, Mich. Administrators of the estates of two persons who lost their lives in an air collision are seeking \$53,000 damages.

The victims, Miss Joanne C. Kyle, 17, and Walter W. Hyde, Jr., 22, both of Wellington, O., were in a private plane that collided with a P-61 flown by Lockwood.

The case is before Federal Judge Emerich B. Freed.

Peiping Cheers Red Conquerors Arriving In American Autos

Peiping, Feb. 3 (AP)—Old Peiping gave its Communist conquerors a rousing welcome today as only this oft conquered city can.

In turn the Communists showed the massed thousands a thing or two—mostly miles of captured American made vehicles.

Long columns of civilians shouted themselves hoarse in a rousing welcoming parade—as they did for the Japanese when they conquered Peiping, the Americans when they arrived, the Chinese Nationalists when they got back, and the hordes of ancient mongols and tartars who preceded them here by centuries.

Powers Tighten Up Blockade Of Berlin In Russian Sector

Berlin, Feb. 3 (AP)—The western powers tightened their counter-blockade against the Russian sector of Berlin today.

Western Berlin's German police placed extra patrols at the sector boundaries to stop the flow of machinery and other industrial products into Soviet-occupied territory.

The police had orders to stop any cargoes characterized as illegal trading under a list recently drafted by the western powers Kommandatura. This included chemical and metal products, generators and other items.

more favorably inclined toward Williams' idea than the Senate. The House contains more small farmers and labor representatives while the Senate is dominated by business and professional men and wealthy farmers.

Williams, insisting he was not proposing a new tax, asked the legislature yesterday to revise the present state corporation franchise tax, now levied on capitalization, to a flat four per cent tax on net income. He said it would increase revenues \$57,000,000 to \$81,000,000, the size of the state's anticipated deficit in the second year of the next biennium.

The capital reaction was mixed. The two Republicans most often considered spokesmen for their party currently, had much the same reaction.

Secretary of State Fred M. Alger, Jr., declared "it was smart politics, but any tax on a corporation is passed on the consumer in the end."

State Treasurer D. Hale Brake declared "I agree we must pay-as-we-go, but the governor has fallen into the standard new deal error of thinking that when you tax a corporation it comes out of its profits; it comes out of the fellow who buys the corporation's products."

Senator George N. Higgins (R-Ferndale) Senate Taxation committee chairman, said "what the people want is no new taxes. I am opposed to new taxes and my vote in committee will be to bottle them all up. First, let's collect some of the taxes that should be collected and aren't."

House Democratic leaders were enthusiastic about Williams' plan, while the Senate party chiefs were more cautious, but willing.

Rep. William Romano (D-Van Dyke) declared "it is about time the corporations got their share of taxation. They should feel their responsibility to the state. I believe we Democrats can get the governor's program through with the help of liberal Republicans."

Night Raiders Burn Korea Border Town

Sneak Attack Kills 7; Prisoners Taken

By WILLIAM G. MOORE
Seoul, Feb. 3 (AP)—At least seven South Koreans were killed today and the police station at the northern border town of Paekchon was burned by a band of raiders. The government said the raiders were North Koreans.

The sneak attack was made in the early hours of the morning. Korean army reports placed the number of raiders at 200 and said they wore South Korean police uniforms. The army also said the raiders killed 10 South Koreans and took back across the border some 40 prisoners liberated from the jail.

An American ground patrol at the scene placed the number of raiders at 150 and the dead at seven—four South Korean police, two soldiers and a girl. About 60 hand grenades were used in the raid, the patrol said.

There was no report of any casualties suffered by the raiders. Korean army air observers over the scene later said there was no fighting visible around Chongdan where heavy fighting had been reported.

Home Minister Shin Sung Mo visited Paekchon and confirmed the raid. He said there were many instances of small bands from Communist controlled North Korea crossing into South Korea on trucks.

FRUCK WRECKS STORE
Marshall (AP)—A store operated by Mr. and Mrs. David Gorman near here was badly damaged when a truck skidded on slippery pavement and crashed into the building. Merchandise was thrown on the floors when the building was moved from its foundation.

Budapest Court Tries Cardinal As Traitor

By The Associated Press
The treason trial of Josef Cardinal Mindszenty, primate of Hungary, started today. It was the first time in history a prince of the Roman Catholic church has been tried by a civil court.

The Hungarian people's court opened the session by saying Mindszenty had offered to withdraw his opposition to a church-state agreement if his trial would be put off. The presiding judge read a letter to that effect, purportedly from the primate.

The letter said Cardinal Mindszenty admitted "grave errors" in his fight against a church-state understanding, promised to give the Hungarian bishops a free hand to negotiate with the government and asked that the trial be adjourned.

The five-man court, after a brief hurdle, refused the request and ordered the trial to proceed.

The 56-year-old primate, wearing the black robe of a simple priest, appeared with six co-defendants in the central court room where Deputy Premier Halyas Rakosi himself was tried on charges of plotting against the government 24 years ago.

Child Bride Of 12 Involved In Minor Stabbing At Mason

Mason, Mich., Feb. 3 (AP)—An investigation of a minor stabbing turned up a 12-year old child bride here today.

Sheriff Allan MacDonald said an investigation showed that dark haired, baby-faced Mrs. Etta Long was married less than a month after her 12th birthday. The child bride of slightly more than three months is large for her age, MacDonald said.

MacDonald asked that the child be declared a juvenile delinquent after she stabbed her husband, Weldon, 23, following a quarrel last month. The husband sustained only minor injuries.

At the time the girl claimed she was 14 but the sheriff said her birth certificate, obtained from Williamstown, W. Va., showed she was born Sept. 30, 1936.

Perjury By Mother
According to her marriage license she was married last Oct. 23 by Rev. Harry Young, Stockbridge minister, Mac Donald said. The wedding license showed the girl's mother, Mrs. Phoebe Sayers, signed an affidavit declaring she was 16.

MacDonald said he would seek a warrant charging the mother with perjury. The sheriff said he also would seek to have the marriage annulled.

The investigation started after the girl was picked up while skating with a group of children following the stabbing. Her husband is a sawmill worker. The girl is being held in the county juvenile detention home pending disposition of the case.

Under Michigan law, marriages below the age of 16 are illegal even with the parents' consent.

Court Speeds Edict On Legislative Pay

Two Precedents Broken By State Tribunal

Lansing, Feb. 3 (AP)—The state supreme court shattered two precedents yesterday in announcing it would speed a decision on the contested new salaries of legislators.

The court sent a written announcement to the House that it had arranged a special conference for Friday at 11 a. m. "with the possibility that decision may be handed down."

The announcement was read from the clerk's desk. This is unprecedented in the memories of veteran court attaches.

At the same time, the court handed the announcement in the form of a press release to newspapermen. It was believed the first supreme court news release in its history.

Legislators' and state officials' salaries have been stopped during litigation brought to upset them by Attorney Philip Kelly of Jackson.

He contended that the \$2,900 salary and expenses voted legislators at a special legislative session last December was unconstitutional because they were voted after the election in November.

The board of canvassers held up certification of the election on the theory that the new legislators were not elected until they were certified. The attorney general's office held that this made the new salaries legal.

Big Portage Lake Level Designated By Circuit Judge

Ann Arbor, Mich., Feb. 3 (AP)—Like King Canute, who ordered the tide to halt, Circuit Judge James R. Breakey, Jr., yesterday set a maximum level for Big Portage lake. Then he ordered steps taken to maintain that level.

That's where the resemblance ends, however. For the legal action is regarded as only preliminary to construction of a dam that would make the order effective.

Judge Breakey's action climaxes 18 months of effort by property owners on the lake to secure flood control measures to preclude recurrence of the spring floods of 1937 that caused widespread damage on the lake shore.

The maximum level was set at 851.54 feet above sea level, its present level. Some 327 property owners are affected.

The measure provides that federal laws and rules will govern the sale of colored oleo.

The measure was presented to the legislature through an initiative petition, circulated throughout the state last year principally by grocer groups. The constitution requires that it be passed unchanged by the legislature before Feb. 20 or be submitted at the spring election.

Contributing to the measure's easy time in the rural dominated legislature is the fear of Republican leaders that if it were submitted at the spring election, it would bring out a heavy vote, especially from the cities, and that too many of the votes would be democratic.

Racing Association Paus State \$450,000

Lansing, Feb. 3 (AP)—The Michigan Racing Association had its rent paid up for the 1949 lease of the Detroit Fairgrounds race track today.

Agriculture Commission Secretary Charles E. Fry, turned over checks totaling \$450,000 to the state treasurer's office. The money will go into the state general fund.

Stalin Peace Feeler Proves Dud In U.S.A.

STREET SINKS INTO MINE—The collapse of an underground mine shaft in Carbondale, Pa., caused Center Street to drop 20 feet below

its normal level in some places. Four persons were injured and 14 homes were badly damaged in this freak accident. (NEA Telephoto)

Priest Perishes In Mt. Clemens Sanitarium Fire

Mt. Clemens, Mich., Feb. 3 (AP)—A Catholic priest died in a fire in his quarters at exclusive St. Joseph sanitarium early today while heroic nurses tried vainly to save him.

The fire, breaking out at 1:30 a. m., sent twenty five other guests and the sanitarium staff of 40 fleeing into freezing temperatures outside.

All the fire equipment of this little city, world-famous for its mineral baths, fought the blaze, limiting the damage to an estimated \$15,000.

The Rev. Father Thomas Barry, 52, of Wickliffe, Ohio, a suburb of Cleveland, was found dead in his bathroom. He evidently had suffocated.

There were no reports of injuries. All available police and firemen had gone to the scene in fear of a possible catastrophe, but the fire was under control within less than an hour's time.

Fire Chief Clayton E. Dubay

Margarine Measure Approved By House

Colored Oleo Bill Goes To Senate In Lansing

Lansing, Feb. 3 (AP)—Having barreled through the House, legislation to permit the sale of colored oleomargarine today was before the Senate.

The House passed the measure yesterday on an 86-7 vote with not a voice raised.

Under a special rule, Rep. T. Jefferson Hoxie (R-St. Louis) explained, following the vote, that he had voted no because he deemed the measure unconstitutional.

He said the state supreme court has ruled that the legislature can not pass a law which depends on future action of the federal government.

The measure provides that federal laws and rules will govern the sale of colored oleo.

The measure was presented to the legislature through an initiative petition, circulated throughout the state last year principally by grocer groups. The constitution requires that it be passed unchanged by the legislature before Feb. 20 or be submitted at the spring election.

Contributing to the measure's easy time in the rural dominated legislature is the fear of Republican leaders that if it were submitted at the spring election, it would bring out a heavy vote, especially from the cities, and that too many of the votes would be democratic.

Guard Headquarters At Wayne Airport Burns; \$50,000 Loss

Detroit, Feb. 3 (AP)—A \$50,000 fire destroyed a Michigan Air National Guard headquarters building at the Wayne county airport near suburban Wayne today.

Flames threatened an adjoining building but were checked before they spread.

The razed building was headquarters of the 127th fighter group, to which the entire air guard is attached. It is located at the south end of the field.

Investigators discovered that Campbell's establishment was 474 feet from one door of the church. However, this door has not been used because it is in bad repair.

Campbell's establishment is 530 feet from the door that is used, so it was ruled his case does not come under the law forbidding the sale of liquor within 500 feet of a church.

The Liquor Control Commission announced it had ruled that Campbell, operator of a restaurant may now apply for his license.

Investigations discovered that Campbell's establishment was 474 feet from one door of the church. However, this door has not been used because it is in bad repair.

Campbell's establishment is 530 feet from the door that is used, so it was ruled his case does not come under the law forbidding the sale of liquor within 500 feet of a church.

The Sundew came here from its Milwaukee base, broke up most of the ice surrounding the tug and then put a light line aboard her to pull her into open water.

The tug, owned and captained by Wallace Chambers of South Haven, became icebound while picking up fishing nets for the winter. Two of the five crew members walked across the ice to the mainland but the others stayed aboard to take the vessel to Waukegan after she was freed.

The Sundew headed for Muskegon to break up ice in that area.

Unused Church Door May Land License For Luther Tavern

Lansing, Feb. 3 (AP)—Because one of the doors of the Methodist church in Luther, Mich., doesn't work, Larry Campbell may get a state liquor license.

The Liquor Control Commission announced it had ruled that Campbell, operator of a restaurant may now apply for his license.

Investigators discovered that Campbell's establishment was 474 feet from one door of the church. However, this door has not been used because it is in bad repair.

Campbell's establishment is 530 feet from the door that is used, so it was ruled his case does not come under the law forbidding the sale of liquor within 500 feet of a church.

Mercury Eases Up In Sub-Zero Belt

(By The Associated Press)

Temperatures continued below normal over virtually all of the country today but they were moderating in the gulf and great plains states.

There was more below zero weather in the Dakotas, Montana, Minnesota, and Wisconsin today, but readings were not as low as yesterday. The mercury touched around minus 20 in some parts of the cold belt and dropped to -23 at Grand Forks, N. D., for one of the lowest marks. It also was near and below zero in some parts of northern New England.

Some warming was reported in southern states but there were many sections reporting sub-freezing temperatures. Southern Florida's mild weather continued with a high of 77 at Miami yesterday.

WOMEN REJECTED

Detroit (AP)—For the third time, the Episcopal Diocese of Michigan rejected, Wednesday, a proposal that women be eligible to serve on parish vestries of the Episcopal church. The vote was taken at the Diocesan convention here.

New Atomic Report Too Hot For Public

Lawmakers in Washington Debate Censorship

Washington, Feb. 3 (AP)—Lawmakers took a guarded look at "one of the hottest documents" ever assembled on atomic energy while they debated whether more atomic information should be made public.

The "hottest" label was pinned on the atomic energy commission's top-secret quarterly report by Commission Chairman David E. Lilienthal. The Senate-House committee on atomic energy went behind closed doors to discuss it.

At the joint committee's open hearing yesterday, Senator McMahon (D-Conn.), the group's chairman, wound up in wide disagreement with several other senators over whether the public should be offered a closer view of America's atomic progress.

McMahon started it by suggesting to Lilienthal that the commission should make known the size of the nation's stockpile of atomic weapons. McMahon said he would like to "get everything out in the open that I can."

But two other committee members said there's too much out in the open now. They called instead for censorship of the atomic commission's reports by top U. S. intelligence officials.

McMahon had called Lilienthal's attention to certain newspaper headlines telling of a new "super-bomb"—Headlines based on the commission's fifth semi-annual report, which was made public.

Lilienthal said the report merely stated that "substantial improvement" had been made in atomic weapons.

Fishing Tug Freed By Cutter Sundew In Saugatuck Ice

Holland, Mich., Feb. 3 (AP)—The fishing tug Cherrio was freed from slush ice in Lake Michigan late yesterday by the Coast Guard Cutter Sundew.

The 35-foot Cherrio had been stuck in the ice since Monday night.

The Sundew came here from its Milwaukee base, broke up most of the ice surrounding the tug and then put a light line aboard her to pull her into open water.

The tug, owned and captained by Wallace Chambers of South Haven, became icebound while picking up fishing nets for the winter. Two of the five crew members walked across the ice to the mainland but the others stayed aboard to take the vessel to Waukegan after she was freed.

Guard Headquarters At Wayne Airport Burns; \$50,000 Loss

Detroit, Feb. 3 (AP)—A \$50,000 fire destroyed a Michigan Air National Guard headquarters building at the Wayne county airport near suburban Wayne today.

Flames threatened an adjoining building but were checked before they spread.

The razed building was headquarters of the 127th fighter group, to which the entire air guard is attached. It is located at the south end of the field.

Numerous air guards' records were destroyed as were two link trailers, valued at \$10,000 each.

Night Watchman Anthony Sobel said he first discovered the fire on the roof of the building. The cause was not determined.

Russian Propaganda Won't Disrupt Unity Of Western Powers

Acheson Spurs Latest Bait From Moscow

By JOHN M. HIGHTOWER
Washington, Feb. 3. (AP)—The United States served notice on the world today that it will allow no Russian "peace maneuver" to disrupt the growing unity of the non-Communist western powers.

That was the real significance seen by diplomatic officials here in Secretary of State Acheson's rejection of Premier Stalin's latest declaration of his willingness to hold a meeting with President Truman.

American diplomats abroad in Western as well as Eastern Europe were expected to make the most of this new and detailed statement of Washington's determination not to make any direct side deals with the Soviet Union at the possible expense of other nations.

Joe Plays Politics
The government's official "Voice of America" radio broadcast was bearing Acheson's 2,500 word statement of the United States position all over the world.

President Truman had an opportunity to enter the picture during the day. He scheduled his usual weekly news conference (4 p. m. EST) and it was expected that he would probably endorse fully all that Acheson had said.

The secretary of state turned thumbs down on Stalin's latest peace maneuver at a news conference late yesterday.

He did it in such a way as indirectly to accuse Stalin of playing international politics with his statement last Sunday. That Stalin statement expressed a willingness to meet Mr. Truman for the purpose of considering a Soviet-American "pact of peace."

And Acheson also renewed the American charge that the present state of the world is due to Russia's "obstructionism" in the United Nations and in other international forums where the great problems of the world are supposed to be solved.

Peace Pledge Useless
Twice in his statement, which analyzed Stalin's Sunday declaration point by point, Acheson asserted the United States would not play politics with the world's peace hopes. At one point he added:

"No man of conscience would tamper with those hopes or use the raising or lowering of them as a pawn in any maneuver."

Further he made it clear that in his opinion it would be useless for

ROB \$3,155 AT TRENNARY STORE

Co-op Safe Combination
Known To Robber

State police and Sheriff Arthur Moote of Munising today continued their investigation of the Tuesday night robbery of the Trenary Co-op store in which \$3,155.12 was taken from the store safe.

Cpl. John Carstensen of the Munising sub-post of the state police said, "someone who apparently knew the combination opened the safe."

Officers said they have been unable to determine how the robber, or robbers, gained entrance to the store.

The safe was found open, and the money gone, when William Hytinen, assistant manager, opened the store at 7:55 a. m. yesterday.

Of the \$3,155.12 taken from the safe, \$2,500 was in \$20 bills, and the remainder in bills of smaller denomination. It was not believed that any checks were missing.

Another \$20 bill and other bills and coins in the cash drawer were overlooked.

Trooper Cosmo Bonello of the Marquette state police post was in Trenary yesterday afternoon with fingerprint equipment to aid in the search for clues.

Brookfield Elephant Remembers Man She Met Back In 1934

Chicago, Feb. 8 (AP)—"Honey," one of the Brookfield Zoo's elephants, is one pachyderm that remembers, says Director Robert Bean.

One of the visitors at the Zoo yesterday was Christoph Schultz, of Denmark, a big game collector. Bean took him to call on Honey.

"Honey came right to him," Bean said. "She raised her trunk and trumpeted with obvious excitement."

Schultz had not seen Honey since she was eight months old in 1934. At that time he was associated with the Hagenbeck Zoo in Hamburg, Germany, and sold Honey to the Brookfield Zoo.

Burlesque Stripper Is About Strapped

New York, Feb. 8 (AP)—Stripper Georgia Sothern says she's just about strapped.

The burlesque and night club performer filed a voluntary petition in bankruptcy yesterday, listing cash assets of \$107 and liabilities of \$7,866.

Any soil that will produce good garden crops will grow good roses.

Great Odd-Job Outfit Is What Army Is Today

By DOUGLAS LARSEN
NEA Staff Correspondent

Washington—During World War II American generals liked to refer to their Army as one of the greatest fighting organizations in history. Today they're calling it the world's greatest odd-job department.

You name it and the Army is probably doing it some place on the globe.

Today's doughboys are repairing street cars in Korea, transporting Boy Scouts to France, fighting mosquitoes around the Panama Canal, making loyalty investigations of Navy employees, keeping bathing beaches in Florida from washing away, producing fertilizer, operating telephone systems in Alaska, storing iodine and aspirin for the Treasury, auditing the books of the American Red Cross, fighting the Gypsy Moth, and designing insignia and flags for the other federal agencies.

Those few items just point up the diversity of the thousands of

minor, non-fighting functions of the U. S. Army today. Under the heading of major functions you find the Army even farther afield from the business of fighting.

Let's start with the job of occupation. First, it involves every aspect of administering a civil government, running post offices, administering law and order, running elections, and the thousands of other jobs of any government. Each separate function requires that the Army have a special staff of experts, consultants and advisers.

The education duties of an occupying army means hiring teachers and superintendents, writing text books, setting up student exchange programs, censoring books, building schools, producing radio programs and making movies. That's just the start.

Some of the types of civilian workers which the Army is trying to hire for overseas work is a tip-off on the complexity of the occupation job. The list includes soil engineers, librarians, fire-fighters, pharmacists, payroll clerks, architects, ministers, historians, newspaper reporters, carpenters, refrigeration experts, laundry engineers, veterinarians, motion picture photographers, stenographers and clerks.

What the Army engineers do in the way of flood control, the building of dams and the supervision of navigable waters in the U. S. is an old story. Since the war these activities have been greatly increased.

The Army's job overseas doesn't end with occupation. It is helping to supervise 13 foreign aid programs and missions, including those in Turkey and Greece. It is in charge of returning all of America's war dead.

Inside the U. S., the Army supervises most disaster relief. It maintains special forces to keep order during strikes. It keeps skeleton crews in training for running the nation's railroads in case of strike.

In addition, the Army must furnish any help needed at any time by any other federal agency. It is aiding the Department of Agriculture in the fight against hoof and mouth disease in Mexico.

It is responsible for the transportation of all congressmen when they go on foreign junkets. It supplies guards and transportation for most of the United Nations delegates.

Today's U. S. Army numbers 658,000 military personnel and 369,016 civilians. Never in its history has there been that high a proportion of civilians in that organization. And it's considered a conservative estimate that about one-quarter of all the military personnel are working on some job which has nothing to do with fighting.

Mercy Mission Into Blizzard Zone Costs Life Of Two Airmen

Omaha, Feb. 8 (AP)—A mercy mission in Nebraska's blizzard area cost the lives of two civilian airmen late yesterday.

While dropping materials to be used for distress signals, their little plane struck a telephone wire and crashed into a farm house.

Their deaths brought to three the number of persons killed in rescue and relief efforts. Earlier, a railroad worker died in a snow plow accident.

Twenty-two persons have died in Nebraska since Jan. 3 from causes directly or indirectly due to the weather.

Meanwhile, the Fifth Army's battle to free the men and animals in snow-locked areas of the Missouri basin began to show impressive results.

In 24 hours, reported Maj. Gen. Lewis A. Pick, commander of operation snow bound, 1,656 snow-bound persons in South Dakota and Nebraska had been liberated.

Gen. Pick said 634 bulldozers had been thrown into the drift-busting battle in Wyoming, South Dakota and Nebraska.

Civic Betterment Group Organized

Iron Mountain, Mich.—Ground work for the organization of a City Betterment committee—plans for which were outlined by Mayor Erminio Raffin shortly before the holidays—will be laid by George Lofstrom, and members of his committee, meeting at 7:30 tonight in the mayor's office in the city hall. It is expected that a general meeting of representative residents of the community, selected to serve on the committee, will be called at an early date.

"We do not plan to present a 'cut-and-dried' program to the general membership. We did, however, deem it advisable to hold a committee meeting first, to thrash out a few of the points under consideration. Everything we do tonight, will be presented to the members for approval," Mayor Raffin said.

Working with Lofstrom on the general membership will be representatives of labor and industry; civic groups and service clubs; the schools; law enforcement and protection groups such as the police and fire departments; the press, and others.

The Betterment committee will devote itself wholly to working with the mayor "to make Iron Mountain a bigger and better place in which to live," he said.

Judge Jackson Gives Sentences

Iron Mountain, Mich.—William Helmer, of Norway, found guilty by a jury of assault with intent to commit great bodily harm, less than the crime of murder, and Elwood Cunningham, of Kingsford, found guilty of breaking and entering in the night time, yesterday were sentenced by Judge Glenn W. Jackson to serve from three and a half to 10 years in the state branch prison, Marquette.

Irving C. Dams and Samuel A. Welcher, who pleaded guilty to charges of breaking and entering a warehouse of the Champion Gravel company, and David and Robert Calcani, who pleaded guilty to breaking and entering another building owned by the same company, were each placed on five-year probation.

Veterans Hospital Patients Beaten; Two Men Indicted

Detroit, Feb. 8 (AP)—Two former attendants at the Battle Creek, Mich., veterans hospital were indicted today on federal grand jury charges of abusing patients.

They are Theo H. Champlin and George J. Johnson, both of Battle Creek.

Frank X. Norris, assistant United States attorney, said six other attendants were cleared for lack of evidence against them.

Champlin was accused of beating a patient and Johnson of slapping another patient.

All eight of the attendants were dismissed by the veterans administration during a four-month investigation of charges of brutal treatment of patients at the hospital.

Champlin, 30, and Johnson, 35, face maximum penalties if convicted of six months in prison and \$500 fines.

"Sold the first day" said Jones

Victor Fazette, 83, LaBranche Pioneer, Dies In Hospital

Victor Fazette, 83, widely known resident of the LaBranche community, died at 11 p. m. Wednesday in St. Francis hospital where he had been a patient for the past two months suffering from a stroke.

Mr. Fazette had lived in LaBranche since 1890. He supervised lumber operations there for many years, and more recently operated a service station and general store. He was born in Green Bay January 13, 1866.

Surviving are six sons and four daughters: Everett of Crystal Falls; Alzard and Leonard, LaBranche; Victor, Jr., Iron Mountain; Louis, Marquette; Napoleon, New Orleans; Mrs. Henry (Evelyn) LaPointe, Iron Mountain; Mrs. John (Elizabeth) Fisher, Menominee; Mrs. Albert (Alice) Miller, Iron Mountain; and Mrs. Harley (Lillian) Kunze of Watertown, Wis.; and seven step-children: Mrs. Odella Bertrand, Marinette; Mrs. A. L. Otto, Seymour, Wis.; Miss Ida Lange, Milwaukee; Walter Lange, Iron Mountain; Arthur Lange, Escanaba; and Charles and Edward Lange, LaBranche.

The body will be removed from the Boyle funeral parlors at Bank River to the family home at 9 a. m. Friday and funeral services will be held at the home at 1:30 C. S. T. Saturday. Burial will be in Bank River cemetery.

Supersonic Plane Gains 1700-Mile Velocity In Test

Cleveland, (AP)—An aviation plant executive has confirmed directly that the X-1, first airplane to exceed the speed of sound in level flight, has attained velocities of 1,700 miles per hour and climbed to an altitude of 80,000 feet.

Lawrence D. Bell, Buffalo industrialist and aviation pioneer whose firm engineered the rocket-powered, experimental craft made his disclosure in an address before the third annual banquet of the Cleveland technical societies council.

Bell said the plane was designed to hit the 1,700 M. P. H. and 80,000 foot marks and then disclosed that the X-1 has been extremely "successful in all its tests."

Air Force security regulations prohibit naming exact results achieved.

Bell also said that the Bell Aircraft Corp., in Niagara Falls, N. Y., is now building a plane "60 to 70 per cent faster than the X-1."

Such an aircraft would reach speeds in excess of 2,400 miles per hour. This is more than three times the velocity of sound (763 M. P. H.) at sea level.

Howard McClusky Visits Stephenson

Stephenson, Mich.—Howard McClusky, professor of education, from the University of Michigan and also a member of the State Advisory Board for the Community School Service Program, visited Stephenson Tuesday to secure firsthand information on the progress of the community.

Dr. McClusky was very favor-

Briefly Told

Elect To Fraternity—William Miron Jr., son of Sheriff and Mrs. William E. Miron of Escanaba, has been elected a member of Phi Kappa Tau fraternity of Michigan State College, where he is a student. Other members of the fraternity from the Upper Peninsula are Doug Trezise, Wakefield; Ray Jacobson, Mike McMahon and Phil Berglund, all of Newberry.

Wolverines Meet—Wolverine Conservation association will hold a meeting at 7:30 tonight in the recreation room on the second floor of the Daily Press office.

Stamp Collectors—The Escanaba Philatelic society will hold its February meeting at 3 Sunday afternoon in the council chambers of the city hall. Plans for the annual meeting in March will be made and the nominating committee selected. All members are urged to attend.

Attends Training Course—Lawrence Viau, of 1819 Grand avenue, representative of the International Brotherhood of Pulp Sulphite and Paper Mill Workers, left this morning for Appleton, Wis., to attend the second session of the third Appleton group of instructors in the steward training program which will be held Friday and Saturday at the Hotel Appleton.

Salvation Army—The Salvation Army Band of Love will meet Friday at 4 at the hall, 112 North 15th street.

Navy Clerk's Error Causes War Scare

Bristol, England, Feb. 8 (AP)—A war scare which resounded through this seaside city like the crack of doom was traced to a navy clerk's error.

Seventy members of the Naval Reserve who had marched off to battle marched back to their loved ones and the old workaday grind. The clerk meant to send them a routine notice to attend a regular drill night, the admiralty explained.

Instead, he shipped out 70 form letters yesterday saying:

"General mobilization this day having been ordered by royal proclamation, you are ordered to report immediately to the Flying Fox, Bristol, with full kit."

At the Flying Fox, a training ship, an embarrassed officer explained to the arriving reservists it was all a mistake.

Claude Monet's painting "Impressions" was exhibited in 1863 in a special exhibition of paintings turned down by the French official salon. It marked an open revolt against the salon's hostility to all originality and experiments in art.

ably impressed with the progressiveness of the community.

Brackett Appointed To Volunteer Vets Employment Group

Secretary of Labor Maurice J. Tobin today announced the appointment of Harry D. Brackett of Escanaba, as a volunteer Veterans' Reemployment Rights committeeman with the Bureau of Veterans Reemployment Rights under the Selective Service Act of 1948.

Mr. Brackett has served as a volunteer Committeeman under the Selective Training and Service Act of 1940 in this area for the past one and one-half years. Mr. Brackett's duties as a volunteer Committeeman will be to assist the returning veterans in securing a proper reinstatement to their pre-service positions, upon request to advise employers of their responsibilities under the law, and to advise employer, labor, veteran, or other interested groups of the reemployment provisions of the Selective Service Act of 1948.

Mr. Brackett will continue to serve veterans of World War II who are seeking their reemployment rights under the Act of 1940. Commenting on this appointment Secretary Tobin paid high tribute to the thousands of

volunteer committeemen throughout the country who have been of inestimable assistance to returning servicemen in securing their proper restoration to their former positions.

One of the latest labor-saving inventions is a new eight-ton scientific device capable of yielding in a few months data that would require several centuries of working time by older methods.

The egg of the Australian emu requires 10 weeks to hatch.

MOBILE X-RAY TOURING DELTA

512 Get TB Examination In Two Communities

The state health department's mobile x-ray unit, giving free chest examinations for the discovery of tuberculosis, today is in Garden and from there will go to Nahma Saturday to complete its first week in Delta county.

At Bark River Monday and Tuesday 310 persons 14 years of age and over received examination, and 22 were x-rayed Wednesday at Rapid River. The total number for the two communities is less than last year but that may be due to the fact that only persons 14 years of age and over are receiving examination this year, district health authorities said.

Monday and Tuesday next week the x-ray unit will be at Rock, and on Wednesday at Perkins, Thursday at Flat Rock, Friday at Wells.

The tour of the county by the x-ray unit will continue until every community in the county is visited and will conclude on March 11.

The tuberculosis death rate for Delta county averaged 34.2 per cent for the years 1945-46-47, compared with a state average of 30.57 and a national average of 30.56 per cent. Delta county had a total of 112 known tuberculosis cases as of Sept. 1948.

Early discovery plus prompt isolation and treatment will save lives and money in fighting tuberculosis, health authorities have pointed out. Chest x-ray is invaluable in discovering the disease before it has made much progress, often before there are visible symptoms. The examination is free and there is no need to disrobe in having the x-ray picture made.

Elks Launch Plan To Tell U. S. Youth Of Their Heritage

New York—As part of their national program to "Make Democracy Work", the Order of Elks has launched a plan to make available to schools a slide film pictorial history called "Our American Heritage." The films were produced by The Reader's Digest in cooperation with The American Heritage Foundation and the National Education Association. General editor of the series was Marquis James, the noted historian.

The program was set in motion when Grand Exalted Ruler George I. Hall called on a million Elks in lodges throughout the country to present sets of the films to their local schools.

Each set consists of six strips, each telling a part of the story of our heritage as Americans in dramatic and interesting fashion. They show the development of our free institutions from Magna Charta through Colonial times and the struggle of the early Republic right down to the present. Emphasis is placed upon what democracy means to the individual.

Mr. Hall said that the scope of the series is indicated by the titles of the six films: "The Birth of Our Freedom," "Freedom's Progress," "Freedom Today," "The Vocabulary of Freedom," and "The Literature of Freedom." They are designed especially for use in teaching classes in history, civics and English. Each kit is accompanied by a manual to assist the teacher in making the best possible use of the films.

COLLISION KILLS COUPLE

Monroe, Mich., Feb. 3 (AP)—Melville B. Toburen, 61, and his wife, Edith, both of Monroe, were killed last night when their car collided head-on with a truck on Telegraph Road 14 miles south of here.

CHICAGO PRICES

CHICAGO BUTTER
Chicago, Feb. 3 (AP)—Butter, steady; receipts 360,561; prices unchanged.

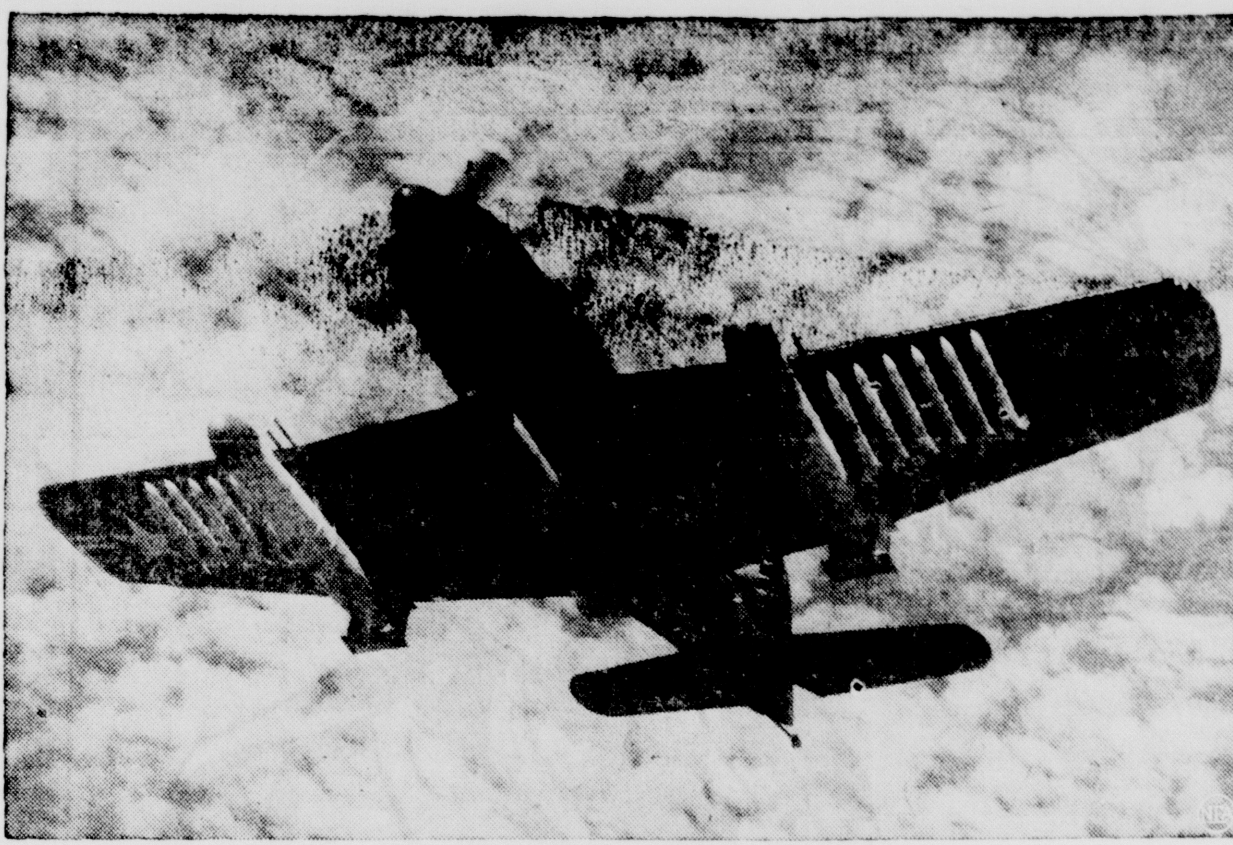

CHICAGO EGGS
Chicago, Feb. 3 (AP)—Eggs, unsettled; receipts 12,717; prices unchanged except for 1/2 cent a dozen lower on U. S. extras 70 per cent. and up A at 42 1/2 to 43 and on current receipts at 39 1/2.

CHICAGO POTATOES
Chicago, Feb. 3 (AP)—(USDA)—Potatoes: Arrivals 101, on track 216; total U. S. shipments 1,060; supplies light; demand rather slow; market slightly weaker; Colorado Red McClure, \$4.15; Idaho russet Burbanks, \$4.75 to \$4.80; bakers, \$5.10; Minnesota-North Dakota Red River Valley bliss triumphs, \$3.45; New stocks: Florida 50-lb. sacks bliss triumphs, \$3.65 to \$3.75.

CHICAGO LIVESTOCK
Chicago, Feb. 3 (AP)—(USDA)—Salable hogs 8,500; general market steady to 25 cents lower; decline mainly on weights under 230 lbs.; closed fairly active, mostly steady on butchers over 230 lbs. and sows; top 22 1/2 springling; bulk good and choice 170 to 220 lb. butchers, \$20.50 to \$21.00; most comparable 230 to 250 lbs. \$19.50 to \$20.25; bulk 260 to 280 lbs. \$18.75 to \$19.25; 250 to 230 lbs. \$17.75 to \$18.50; few around 350 lbs. \$17.50; most 450 to 500 lb. sows \$15.75 to \$16.50; few lighter weights upward to \$17.50; bulk 325 to 600 lb. sows \$15.00 to \$15.75; good clearance.

Salable cattle 4,000; salable calves 400; slaughter steers and heifers slow, steady to 50 cents lower; mostly steady to weak; beef cows weak to 25 cents lower; canners and cutters about steady; bulls active, strong to 50 cents higher; vealers steady; few loads and lots choice steers and yearlings \$24.00 to \$25.00; top \$25.00; medium and good grades \$19.00 to \$23.75; several loads good and choice 900 to 1,000 lb. fed heifers \$23.00 to \$23.50; medium and good heifers \$19.00 to \$22.50; beef cows \$18.00 down; canners and cutters \$14.00 to \$16.50; medium and good sausage bulls \$22.00 to \$23.50; vealers steady at \$24.00 down.

Salable sheep 3,000; slaughter lambs very slow; 50 cents lower; two loads good to choice handweights to eastern order buyers at \$25.00; bulk of crop unsold; big packers bidding more than 50 cents lower; meager supply slaughter ewes here also tending lower.

ABLE MABEL PROVES HER ABILITY—The Martin AM-1 Mauler, nicknamed Able Mabel by the men of the Navy, carries a destructive payload of 9000 pounds—three full-size torpedoes, 12 five-inch rockets, and, in the leading edge of the wing, four 20-mm. aerial

cannons. Those weapons make Able Mabel the most heavily-armed carrier-based dive-torpedo bomber. The total weight of 25,520 pounds it carried when photographed is believed to be the heaviest ever flown by a single-engine aircraft.

Baby's Rebuilt Tongue Lets Him Have His Say

Newark, N. J., (NEA)—One of these day's Bruce Thompson's parents are going to hear their eight-month-old son make a lot of noise, and even if it wakes them up in the middle of the night, they'll be as pleased as any parents can be.

The noise will be the first sound they've heard from Bruce since he was born and it will mean Mr. and Mrs. Alton Thompson, of Imaystown, N. J., can stop worrying that Bruce will grow up without a voice in his own life.

What made it possible was the surgical skill that rebuilt Bruce's backward tongue.

When he was born, it was discovered the baby had a malformed jaw and a cleft palate; the tongue lapsed backward, shutting off normal breathing through the windpipe.

An immediate life-saving maneuver was performed so that Bruce could breathe through a silver tube with a butterfly valve in his neck.

But to correct nature's strange mistake, the New Jersey Crippled Children's Commission and St. Barnabas Hospital in Newark got together. Four lower front teeth were extracted before they ever saw the light of day. Then the tongue was brought forward and re-hinged.

A few days ago, when the stitches were tied off, the surgeon and nurses heard the gurgling sounds of almost normal breathing. Soon after that, Bruce began getting his meals through his mouth—with a medicine dropper at first, but no longer through a tube in his neck.

There's still one more operation to come—surgery to correct the palate. That won't be done for another year, but by then the Thompsons will already have heard Bruce break his eight-month silence.

Ambrosia was the food and nectar the drink on which the gods of ancient Greece were supposed to feed.

Bruce Thompson and nurse: His tongue was on backwards.

In Volcanic Crater

Crater Lake is a lake of extraordinary blue water in the crater of an extinct volcano in southwestern Oregon. The lake was made a national park in 1902.

The American Negro is, by blood, something new in biology, representing crossing of various blood lines from the different African tribes as well as considerable white and American Indian infusions.

Although young walrus are covered with pale brown hair, the old animals are almost completely hairless.

Channing Appointed Christian Science Publication Editor

George Channing, C. B. S., formerly of Detroit, has been appointed editor of The Christian Science Journal, The Christian Science Sentinel and The Herald of Christian Science, in the several languages in which it is published.

Mr. Channing is a graduate of Brown University from which he received the degree of A. B. He studied law at Yale and Brown Universities, and became engaged in newspaper work. He spent a year with The Detroit Free Press from the fall of 1916 to the fall of 1917 when he joined the staff of the old Detroit Journal as a special feature writer. He served in the First World War from March, 1918 to April 1919, at which time he went back to the Journal for a short period after which he accepted a position with the Tacoma, Washington, News-Thiburne, in the editorial department.

Mr. Channing served as First Reader of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, later serving as a member of The Board of Trustees of The Christian Science Publishing Society. For the past three years he has served on the Christian Science Board of Lectureship, resigning that position to become editor of the Christian Science Periodicals.

Mr. Channing's many friends in Detroit and Michigan will remember his active work in this field and his work on the lecture platform where he always drew capacity crowds because of his dynamic and forceful presentation of his subject.

He gave a lecture here several years ago.

BUZZ-BOMB TESTED

Fairbanks, Alaska, Feb. 3 (AP)—A speeding buzz-bomb believed to be the first ever fired in the Arctic, hurtled a distance of 15 miles yesterday in the first of a series of air force experiments in the Far North.

Radioactive carbon from Oak Ridge was used in producing definite proof that green leaves can add together the two simple sugars, glucose and fructose, to form cane sugar or sucrose.

Charlevoix Editor Named Observer On Atlantic Maneuvers

Charlevoix, Mich., Feb. 3 (AP)—Publisher Lawrence E. Towse of the Charlevoix Courier has been chosen by the United States Navy as a news observer of the Atlantic fleet's spring maneuvers.

One of eight weekly newspapers publishers selected, and the only one from Michigan, Towse will sail from Norfolk, Va., Feb. 16 and return March 28 after cruising the Caribbean.

Heretofore, Towse said, the Navy has chosen its news observers from among the ranks of publishers of large daily papers and magazines.

COLLISION REPEATED

Jackson (AP)—After John Norkey parked his car in front of his home, another car driven by Edward G. Comfort crashed into it. Norkey had his car repaired and parked it in front of his home again. It was hit again by a car travelling along the street. Police identified the driver as Comfort.

FIRE ROUTS CO-EDS

Ada, O., Feb. 3 (AP)—Fire today destroyed Turner Hall of Ohio Northern University, routing 16 co-eds and causing damage estimated at \$25,000. There were no injuries.

COHODAS TO REBUILD

Marquette (AP)—The plant of the Cohodas Brothers Co., destroyed in an explosion late last year, will be rebuilt on the same site, officials of the wholesale food concern announced.

Some scales are so delicately balanced they register the weight of a human hair.

POSTCARDS TOO OLD

Jackson (AP)—Retail merchants here have set up a committee to contact postcard manufacturers in a move to replace outmoded picture postcards of Jackson. The action followed complaints from local merchants. One store said it had tossed out 47,000 outmoded cards.

Wife Tends Babies For Rival; Freed Of Husband's Murder

Mobile, Ala., Feb. 3 (AP)—The mother of a 20-month-old son was freed of a charge of murdering her husband after testifying that she was forced to baby-sit for "the other woman" for \$6 a week. Details of the suburban love triangle were disclosed yesterday before Judge William R. Bekurs in recorder's court.

The mother, slender 29-year-old Mrs. John J. Foster, said her husband beat her and threatened her life when she sought to break up an affair he was having with a pretty brunette. She shot her husband in self-defense, Mrs. Foster said.

After the shooting, according to Detective Hugh Prime, Mrs. Foster held her husband in her arms and said:

"Baby, I want to tell you something before it's too late—I love you and always will."

The detective testified that the young mother signed a statement saying her husband coerced her into baby-sitting for her rival's two children.

The need for a waterproof material around bathroom showers, which first became popular in the United States after World War I, greatly spurred clay tile production and sales.

Opposition Leader Flees In Hungary; Party Is Dissolved

Vienna, Feb. 3 (AP)—The head of the opposition Catholic party in Communist-dominated Hungary sought haven outside the Iron Curtain today after dissolving his party despite what he termed government threats of severe reprisals.

Istovan Barankovics, chief of the Democratic people's (Catholic) party, said "a most competent person in the government" told him the price for permission to end the party would be a declaration it was done because of the Vatican's actions in the case of Josef Cardinal Mindszenty.

Barankovics, fleeing from his country after sending a letter to the government that his party no longer existed, issued a statement yesterday as he passed through Vienna. He was reported on his way to an undisclosed destination in the west.

Mindszenty, charged with treason, goes on trial today.

MOOSE IN HOLLAND

Holland, Mich., Feb. 3 (AP)—The Chamber of Commerce has used its tulip time housing list to arrange accommodations for more than 700 members of the Loyal Order of Moose who meet here Friday through Sunday for their annual state convention.

PREXY RECOVERS

Kalamazoo (AP)—President Paul V. Sangren of Western Michigan college will resume his college duties in about two weeks. He has been recovering from back injuries received in an auto accident Dec. 31 while returning from a hunting trip.

Russian Peace Feeler Proves Big Dud In U. S.

(Continued from Page One)

"half way around the world" for the fourth time to meet Stalin and make a pledge of peace when both Russia and the United States are already pledged by the United Nations not to resort to war.

Acheson said he had noted the further development yesterday in which Stalin said he was prevented by his health from traveling to Washington by ship or airplane. On this Acheson commented:

"He thus seems to be effectively grounded. The implication of this answer perhaps is that the president of the United States for the fourth time should travel half way around the world to meet Premier Stalin and on this occasion to do so for the purpose of talking with him on a matter so tenuous that it defies specific statement."

Acheson aimed another blow at Stalin's use of public statements by telling the press:

"All of the normal channels (between governments) are open. I hope you will not take it amiss if I point out that if I on my part were seeking to give assurance of seriousness of purpose I would choose some other channel than the channel of a press interview."

Acheson's comment on this point reflected the belief of his Russian experts. This is that if and when the Soviet government seriously intends to try to reach some settlements with the western powers, it will undertake to do so through secret diplomatic approaches and not in public statements which are considered here to be propaganda.

Colored Margarine Sale Proposed

LEGISLATION TO PERMIT the sale of colored oleomargarine in Michigan is being considered by the state House of Representatives and a bitter battle on the issue is in prospect.

Approximately three-quarters of the states permit the sale of colored margarine, but Michigan is one that does not. Dairy interests have consistently and effectively corralled the support of rural district lawmakers to retain the ban on colored margarine. The federal government, too, restricts the sale by assessing a 10c per pound tax, a levy which is bound to be the subject of another interesting congressional battle in the present session.

It is unfortunate that housewives are unable to transmit to their legislators their collective sentiment on the colored margarine ban to the degree that the dairy interests and farm groups can do so through paid lobbyists. Needless to say, housewives are not happy about the messy task of mixing margarine at home, particularly in view of the fact that margarine is naturally yellow colored but must be de-colored in the manufacturing process to conform to restrictive laws.

Despite pressures from individual housewives and from the grocer associations, the prospects for removing the restrictions on margarine sales in Michigan cannot be regarded as unduly bright at this time.

Another Hotel Fire

SIX PERSONS were killed in a hotel fire at Ripon, Wisconsin this week, a tragedy that once again brings to the forefront the necessity for increased fire safety regulations for hotels and similar establishments.

Some of the worst fires of recent years have been in hotels. The annual death toll of hotel fires has always been high, despite regular inspections of safety devices, fire escapes, fire fighting apparatus, etc.

It is particularly significant that there has never been a loss of life by fire in any hotel equipped with a water sprinkler fire protection system. Inevitably such equipment must be required as standard protection in every hotel if the problem is to be effectively solved.

Hotel fires have a peculiar habit of breaking out at night when the guests are asleep and when the hotel staffs are manned with the minimum personnel.

University Fires Red Profs

THE UNIVERSITY OF WASHINGTON has dismissed three professors for Communist affiliations. They received exhaustive hearings marked by a scrupulous regard for the academic virtues of free inquiry, precise definition and liberality. Two of the men, members of the English and philosophy departments, admitted belonging to the Communist party since 1935. The other, a teacher of psychology, would not confirm or deny his membership.

The university's decision avoided the usual confusion that surrounds this difficult subject. The point was not guilt of thought versus guilt of action, nor was it the legality or illegality of party membership. The basis for dismissal may be summed up as a conclusion that a member of the Communist party cannot teach the truth.

We think there is ample evidence and sound support for that belief. Anyone who has followed the statements of Communist leaders through the years, or who has noted the members' slavish following of radical and contradictory changes in policy, or has read the disclosures of former party officials like Louis Budenz, is almost obliged to admit that to Communist strategists truth is only an incidental adjunct to propaganda. It is an expedient tool, not a guiding principle.

It must also be clear to anyone even casually familiar with Communist practices that the party demands unquestioning obedience from its members. To the cardholder, communism is not a subject for parlor sophistries. He does not doubt or say "yes, but..." He accepts the latest line, whatever it is. He justifies it according to the arguments sent down from on high.

This is as true in Communist art and science as in politics. In fact, those fields cannot be divorced from politics. Teaching, scientific research, painting, music composition, all must conform to a political pattern. A succession of musical sounds or of brush strokes must exalt Soviet supremacy and the dictatorship of the proletariat. They must abjure all bourgeois influence.

Such examples are not exaggerations, of course. They may be found in the reports of the controlled Communist press. They fully justify the conclusion that a party member is incapable of perceiving and teaching what the non-Communist world defines as scientific and academic truth. For truth has lost its ancient, timeless meaning for those who have chosen to think and live according to the dictates of

Marx, Lenin and Stalin.

The University of Washington was not primarily concerned with whether its Communist faculty members advocated and planned the violent overthrow of the government. Its judgment was based on a lack of honesty, competence and responsibility. In finding the three professors wanting on all three counts we do not think the university violated civil rights or academic freedom. Instead, we believe it has established the soundest and most democratic precedent yet for dealing with one phase of the Communist menace.

He's Wild About Harry

SEN. HOMER CAPEHART was chiding his fellow Republicans at the Omaha wake for their lassitude in the 1948 campaign. "I've been in business 25 years," he said, "and I wouldn't hire one of you as a salesman. If I wanted a sales manager, I'd hire Harry Truman."

That just about proves that Harry Truman is the luckiest man in the world. First he gets elected president, on about a 50-to-1 chance. Then Congress gives him a handsome pay boost. And now he seems in line for a good job in 1953 with the Indiana phonograph man.

Other Editorial Comments

TEACHING A CALF TO DRINK

Sophisticated urbanites who were unfortunate enough not to have a farm background would not be expected to appreciate the fundamental importance of this subject. For their information it should be explained that on many farms it is common practice to teach the calves to drink skim milk from a bucket when they are a few days old. Skim milk plus mineral-fortified calf meal is a good ration for a sub-debentate bovine.

Countrymen and boys who have been inculcating the principles of etiquette in young calves for many years differ in their opinions regarding the most efficacious techniques. Considering the confused state of educational procedures among home sapiens this is not unduly alarming. Our democratic society has been divergent angles and the controversies over modern progressive education are typical of the present confused state of affairs.

Two methods are commonly employed in teaching the obstreperous, opinionated young bovines to drink from a bucket. The first might be logically called the time-tested military principle of free maneuverability. In the center of the pen one straddles the calf and attempts to push its head downward into the foamy, warm milk. A finger of one hand in the calf's mouth and the other hand on its knobby head combine honest force with subtle cajolery. The other technique is to anchor the calf's rear quarters in a corner of the pen and attempt the jittery educational process from a theoretically fixed base of operation. The countryman has conducted many experiments in both techniques and has added a few improvements and refinements of his own ideas. The same general conclusions may be stated for bovine education as for the young of the human race. Results to date are inconclusive and further investigations are in order. So far as teaching a calf to drink is concerned, he can say that whatever method is employed a man must expect tipped-over buckets, sudden geysers of wind-blown froth and an ample quantity of milk on his overalls.—By Haydn Pearson.

BEAN POLE BASKETBALL (Milwaukee Journal)

Minnesota's powerful basketball team enjoys a big advantage in Jim McIntyre's 6 foot 9 inches. The Phillips 66 team has a 7-foot center. The tall fellows are more and more favored in the game for the sake, particularly, of controlling jump balls and rebounds.

If the game is not going to be given over to the Giants, perhaps there should be some classification of teams or players according to height. After all, the runts ought to have some chance to play and spectators ought to have a chance to see what players of ordinary stature can do when competing against opponents of their own size.

How would it be to have a 5 foot 9 inch league, a 6-foot league, etc.?

The best tips in connection with vacation are those you save by not taking one.

New fall hats are on display. At least, that's what we think they are.

Take My Word For It . . .

RIISING IN DEFENSE OF THE SOUTHERN ACCENT

About 40 million Americans speak with some degree of the so-called Southern accent. It is no more incorrect than is the distinctive accent of New England, or the characteristic speech of the Middle West.

But it becomes a ludicrous thing when non-Southern writers and radio actors try to put Southern speech into the mouths of their characters.

Let me cite a few typical examples that Southerners greet with howls of merriment. From a Saturday Evening Post story about a University of Texas senior and a murderous hitchhiker (the Texan speaking of the speed of his car): "Ah had her to a hunned an' twelve. Co'se a speed-o-meter ain't always right; maybe she wa'n't doin' nowheah nearthat."

The dialect is bad enough; but to put such an unheard of pronunciation as "speed-o-meter" into a Texas college man's mouth would be an insult if it wasn't so ridiculous. As far "wa'n't" for wasn't—well, that's a pure New Englandism that never occurs in either Southern or Western speech.

From a Collier's story of a young Virginia lawyer (therefore a college graduate) in a Boston hospital (the lawyer speaking to a pretty nurse he has fallen in love with): "You know I was jes' holdin' may breath twill (get that 'twill') you

Times Change, Will G.O.P.?

BY MARQUIS CHILDS

St. Louis, Mo. — Events have a way of outdoing the bravest words of philosophers and politicians. Sometimes this happens even as the speaker is uttering his noble sentiments.

From several Republicans at the national committee meeting in Omaha came the long familiar, yet nevertheless eloquent, plea for the preservation of freedom. In this view the federal government is an all-devouring, power-seeking monster deliberately bent on destroying America's ancient liberties.

While those words were being spoken, still another blizzard was raging outside the windows. Across the plains and in the mountain states, huge herds of cattle and bands of sheep are threatened with destruction. It can be a disaster of a magnitude not yet appreciated in the East.

One remedy that instantly occurred was the airplane. In the intervals when the weather abates, food can be dropped to animals otherwise cut off. This may not mean substantial help, but it is being tried.

AVIATION HERE TO STAY

The federal government is the only agency that can help in this way, because only the Air Forces has the necessary equipment. So immediately the governors of the states, Republican and Democratic alike, appeal to Washington for help with a haylift.

Here, it seems to me, is a striking example of how technology and the ever increasing centralization of our world are tied together. Only a strong federal government can afford an Air Force. No sensible person would propose that each of the 48 states maintain its own force, complete with flying boxcars.

Nor is it possible to suppress modern technology, with its ever widening implications. Once the internal combustion engine was perfected and the Wright brothers made their first flight at Kittyhawk, everything followed, from the B-36 to the jet fighter that goes faster than sound. The airplane is here to stay.

In my opinion, that is where the heart-felt eloquence of those who denounce big government is off the beam. If you look realistically at it, you must conclude that perhaps the chief reason for the bigness of big government is the effort to bring the fantastic new technology of the past 20 years within the framework of the kind of life we have known.

BIG GOVERNMENT DANGERS

A second reason for the bigness of big government is the bigness of big business. Corporations with several hundred thousand employees have an economic power greater than almost any state in the union.

There is a danger from big government, and a very real danger. To centralize the direction of all functions in Washington is to destroy initiative and incentive and to invite breakdown.

It is just here that the Republican party could play a vital role in pointing out a reasonable middle course. But this cannot be done as long as so many leaders in the party continue merely to denounce the New Deal and point with passionate devotion to the past.

One Republican at Omaha said more or less that in a speech which got almost no notice. That was Nebraska's Gov. Val Peterson, a veteran of World War II, re-elected last fall by a majority more than twice that of Governor Dewey.

GOVERNED BY PAST

Peterson spoke straight from the shoulder to warn that if the dead hand of the past continued to "dominate," the end for the party was extinction. He said:

"We must recognize that government does have an appropriate place in our lives beyond that of validating property titles, putting out fires and arresting burglars. The principle of individual initiative is a good one, but the utilitarian doctrine of the greatest good to the greatest number, or that of subordinating the individual to the public welfare, has an equally honorable place in our society."

The audience that heard this had just wildly applauded the booming emptiness of Sen. Kenneth Wherry's oratory. It was hard to tell whether they were listening to the earnest young governor. When Peterson sat down, Toastmaster Wherry turned to introduce Sen. Homer Capehart of Indiana as "a real Republican who talks like a Republican."

He may not have meant this as a slur on the governor of his state, but to some in his audience it sounded that way. As the old slogan has it, you pays your money and you takes your choice.

came, Miss Julie. If ah don't get one tiny nibble of yo' stubborn lil' chin ah'm gwine (yes, "gwine") doe of stav'ation!"

Any halfway educated Virginian heard talking like that would be rushed to the hospital to have his head examined; and I suggest the same procedure for Collier's fiction editors.

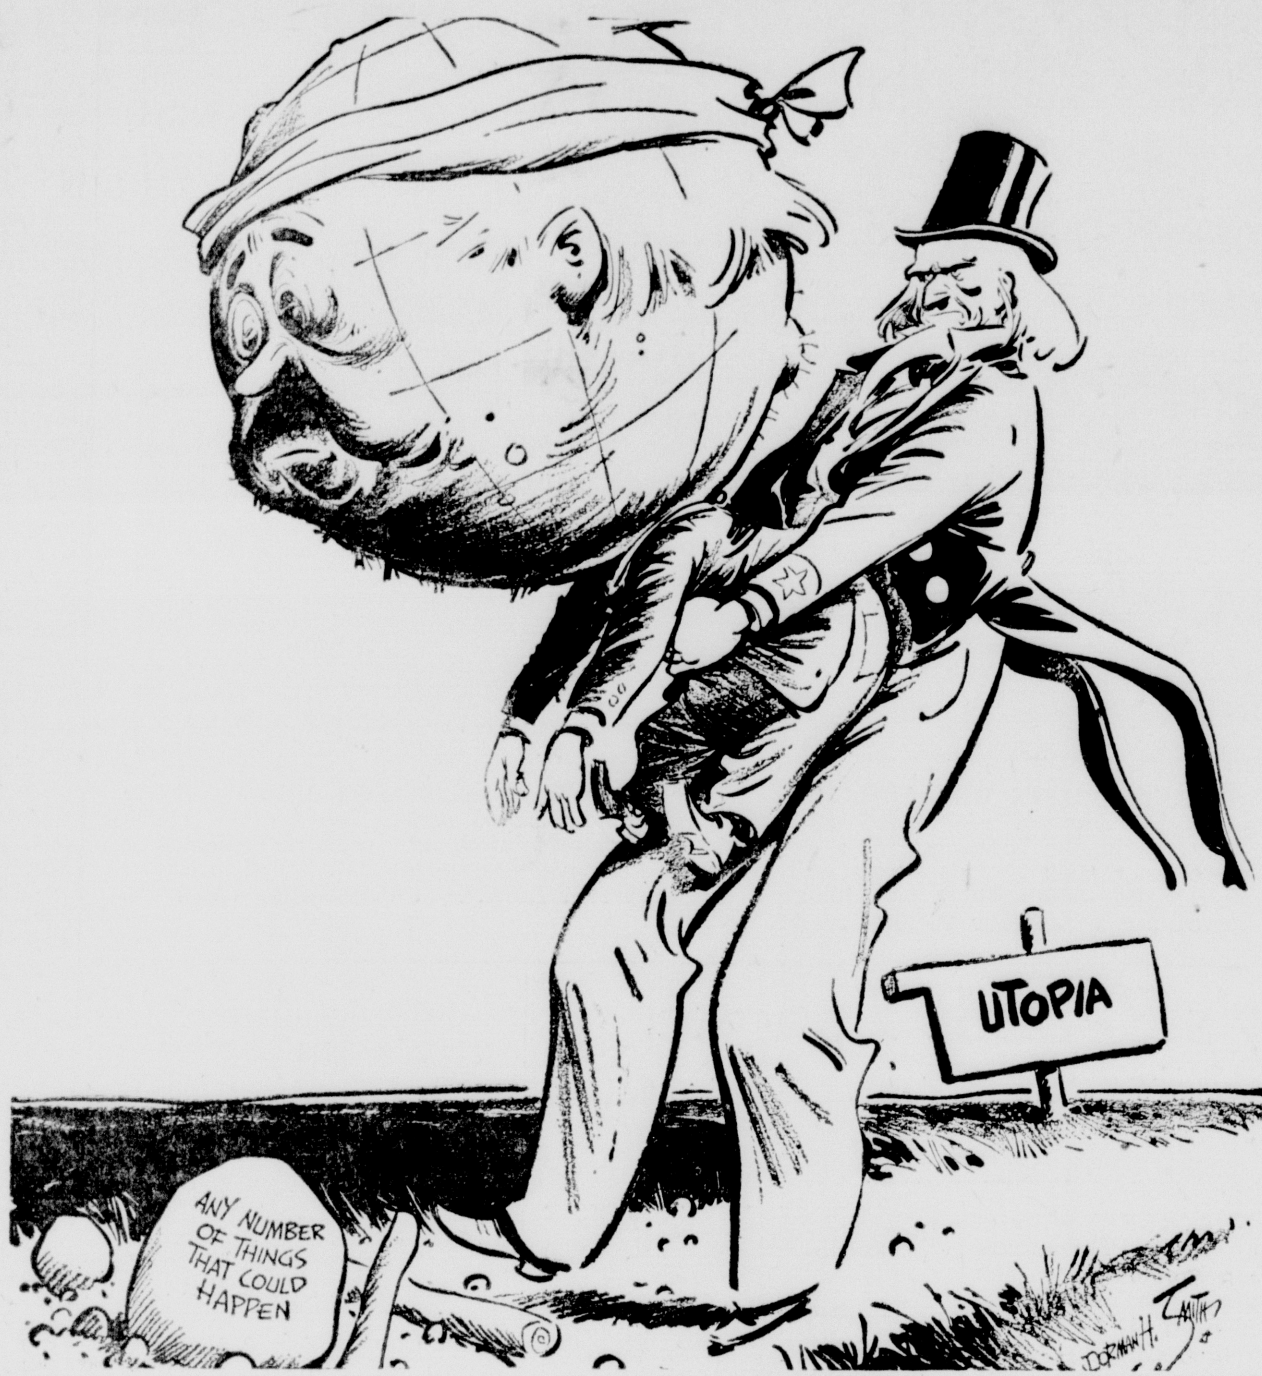

Another silly mistake is having Southern characters say yo' for you. Here is a typical example from the Lil' Abner comic strip: "Mah friend, has yo' got somethin' t'warn me up, inside?"

Southerners pronounce you no differently than do other Americans. They say "yoo," or, in unstressed positions, "yuh." But yo? Never!

Some Southerners say yo' or yore for you and you're. And many Southerners say "yav" which also prevails in New England. But yo' for you simply doesn't exist, even in the speech of illiterate whites and colored people.

Good! If We Can Only Keep From Stumbling

Good Evening

By Clint Dunathan

SOLD OUT—Today we are touched with a feeling akin to pity. The feeling is aroused by reliable eye-witness reports that the folks in Lansing have again divorced the Upper Peninsula.

It all came about at the presidential inauguration parade recently in Washington, D. C., when Michigan's Gov. G. Mennen Williams rode smilingly in front of a Michigan float. On the sides of the float were pictorial maps of the state—minus the Upper Peninsula.

Michigan, so far as the parade spectators were concerned, began at the Ohio line, went north to the Straits of Mackinac, and stopped. North of that was—nothing.

HIGHEST BIDDER—It was a gala day, ladies and gentlemen, with flags and hands waving, with Gov. Williams flashing his friendly, handsome, smile and his colorful bow tie.

But Upper Peninsula folks attending the inauguration felt lumps rise in their throats, tears sting their eyes, and the thumping hands sounded like a funeral march. The Upper Peninsula, land of clear waters, wind-shaken pines, rich in valuable ores, progressive in farming, visited annually by millions—the Upper Peninsula was forgotten.

There is no greater insult than to be ignored. The interests that had prepared the float had sold out the Upper Peninsula for the sake of expediency. Cumbersome and unwieldy to map, sprawling and awkward in contour as a teen-ager, the Upper Peninsula had to be dispensed with for the occasion.

CLOSER HOME—Not so long ago newspapers of the Upper Peninsula took to task Dr. Renner, professor of history, Columbia University, for his derogatory remarks about the U. P. in an article in American magazine. The Lower Peninsula was, he wrote, filled with industries and people. The Upper Peninsula was full of stumps and a few mining towns.

That the misinformed Dr. Renner should repeat such libel for publication was bad enough. But to have Michigan's own people, charged with entering a Michigan float in the inaugural parade, completely ignore the U. P. was doubly insulting.

Not only that, but the float that gave the impression that Michigan had only one peninsula—the lower—was paid for in part by Upper Peninsula persons. A list of those who contributed to the expense of the float was on its side and included people from the unmapped U. P., says our informant.

ONLY HALF STATE—So far as we know Michigan is the only state in the union completely divided geographically. For this reason it is necessary that political and fraternal unity be encouraged and maintained. For many reasons the people of the Upper Peninsula are proud of their state—as a whole. Sometimes they wonder whether this feeling is shared by all of the people in the Lower Peninsula.

There is little to be said for the cause of those who have sought separate statehood for the Upper Peninsula. Nor is there any serious consideration given a

INTO THE PAST

Ten Years Ago

Escanaba—Mr. and Mrs. Harold W. Fitzpatrick have moved to Sault Ste. Marie where Mr. Fitzpatrick will be in charge of the Michigan State Employment service office. His duties here will be assumed by Whitney Dixon, who has been in charge of the Ironwood office.

Rock—Erick Anttonen of Rock was admitted yesterday to St. Francis hospital for treatment of a fractured pelvis suffered when he slipped and was run over by a large sleigh.

Gladstone—Miss Helen Mae Hedin, physical education director in Gladstone high school, has been selected to reign as queen of Gladstone's seventh annual winter sports carnival. It was announced yesterday by Russell Skellenger, chairman.

Twenty Years Ago

Escanaba—More than 500 members of Bethany Lutheran church gathered in the parlors last night to honor the 50th wedding anniversary of Mr. and Mrs. August Bloomquist of 301 South 11th Street.

Gladstone—Mr. and Mrs. M. J. Magoon have returned from Marquette where they visited with their daughter Josephine who is attending Northern State Teachers college.

Nahma—Leo Bedard, recent naval enlistee is visiting at his home here. After his leave, he will be assigned to duty in South America.

The law of love, greatness through service, the Golden Rule, and the redeeming power of the Spirit of God in human hearts, must be brought to a dominant role in the affairs of men or civilization will perish.—Dr. Jesse Hays Baird, president, San Francisco Theological Seminary.

proposal—as made by Dr. Renner—that the Upper Peninsula be attached to Wisconsin. All that is wanted by the people of the U. P. is equality, fraternity and recognition as residents of an integral part of Michigan.

HARD TO MAP—The Upper Peninsula is big. The mass of its land area lies north and west of the northern tip of the Lower Peninsula. A map of the whole state looks somewhat like the letter T with one of the arms of the letter removed.

The Upper Peninsula does not fit gracefully into the neat outlines of a map. Cartographers often shove the Upper Peninsula eastward or contract its western extreme to make the state map more compact.

Often the Upper Peninsula is forgotten altogether. One Detroit newspaper for nearly a year ran an advertisement by a big department store showing a "map of Michigan." No Upper Peninsula was shown. Many school geographies report "Michigan is shaped like a mitten," and dispense with any reference to the Upper Peninsula.

A friend of ours suggests, reasonably, that if Michigan map makers included the Great Lakes water areas of the state the U. P. would fit naturally and conveniently into the design. Michigan's area does include the waters of Lake Michigan, Lake Huron and Lake Superior, as the Hon. Chase S. Osborn has emphasized several times. The Upper Peninsula is a part of the whole and should be included in Michigan maps—even though it would necessitate a scale reduction of the Lower Peninsula.

Roving Reporter

By Hal Boyle

New York (P)—There's a fellow missing from the contemporary scene.

But there's some doubt if very many people miss him much. The fellow I'm talking about is the big ha-ha man of yesterday—the practical joker.

Whatever became of him? Down what lost manhole has time drained him—the fellow who believed in "anything for a laugh?" Whatever became of his bag of stale tricks?

You remember him? He was the fellow who called you on the phone and said, "Hold the line a minute." Exactly 60 seconds later he'd ask sweetly, "Well, did you catch anything?" Then he'd bang the receiver in your outraged ear.

Yes, he was some prankster—the practical joker. At the office he'd leave a faked summons from the boss in your typewriter. He'd have his girl friend write a mash letter to your home signed "with all my love, Molly." He was the fellow who anonymously advised 30 different life insurance salesman you wanted to buy a policy. And he saw that they all called on you at the same hour.

In the old days he carried a loaded cigar in his pocket. He also had some kitchen matches to give you the hotfoot. If a bum asked him for a coin to buy a cup of coffee, the practical joker always managed to have a Canadian dime ready to drop into his hand. When he threw a party, he slipped you a glass with a hole near the top—so the drink dripped all over your new suit.

What a card! What a character!

One joker even went to the trouble of building an upside down hangover room in his home. When a guest became intoxicated and passed out, the poor fellow was dragged into this room and draped around a chandelier sticking up from the floor. A rug, tables and chairs had been fastened to the ceiling overhead. Imagine the plight of the startled guest when he woke up, head throbbing, and looked up. Picture his pitiful attempts to get "down" from the chandelier to the floor "above."

Well, somewhere along the way that kind of nonsense went out. There was no widespread rebellion among the victims of the practical jokers. But somehow his jokes, by and large, just quit being funny.

The loaded cigar and the hot-foot became obsolete. People still like to laugh. But today they want to laugh together more than they want to laugh at each other.

The trouble with the practical joker was that he usually put somebody on the pan. And a generation that has weathered a major depression and two World Wars probably just got tired of seeing anybody on the pan.

Life became too practical for impractical practical jokes.

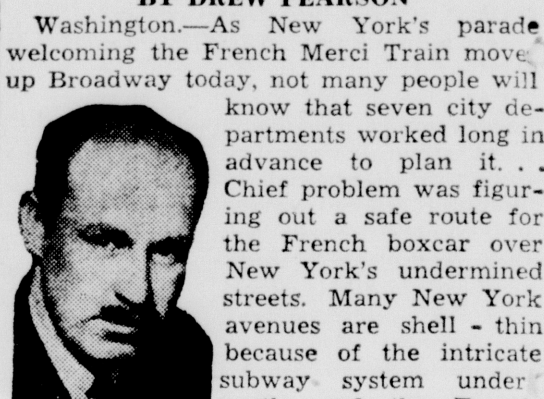

Here and there a fellow still sets a fire alarm bell off just to watch the firemen get some exercise. But if he does, nobody laughs. The gentlemen who essays a practical joke today is likely to be rewarded with a punch on the chin.

The world has grown up too much to enjoy the cruel and hurtful practical jokes of the past. When the last practical joker is buried, it would be pleasant to put him under a nice tombstone bearing this epitaph: "Having wonderful time. Wish you were here."

Nobody would begrudge him this last laugh—as long as we were sure it was his last one.

The Washington Merry-Go-Round

BY DREW PEARSON

Washington.—As New York's parade welcoming the French Mercier Train moves up Broadway today, not many people will know that seven city departments worked long in advance to plan it. . . Chief problem was figuring out a safe route for the French boxcar over New York's undermined streets. Many New York avenues are shell-thin because of the intricate subway system underneath, and the French World War I boxcar mounted on an Army trailer weighs 20 tons. Even New York's city hall is half over a subway, so police had to mark off areas strong enough to support the French car. . . New York Central RR engineers also had to determine whether the car could travel over Park Avenue, under which run New York Central tracks.

Suave Grover Whalen, chairman of New York's gratitude train committee, got so excited over planning the train's arrival that he even showed up on time for meetings. In New York that's considered revolutionary. . . All sorts of people, inspired by the French gesture of friendship, offered their help and cooperation. . . When it looked as if the SS De Grasse, bringing part of the French gratitude train committee, might be late, the Coast Guard offered to fly out to sea to bring them in early. . . Frederick Lyford, president of Merritt, Chapman and Scott, heard about the train, offered heavy derricks to unload the cars. . . The Moran Tugboat Service offered tugboats for tying up the French ship. . . Mort Blumenstock of Warner Brothers arranged for filming a special picture to be shown to the French people, telling them how the American people welcomed their gesture. . . New York's commissioner of markets, Eugene Schultz, who last year warehouse, packed and shipped millions of dollars worth of friendship train food, took over the job of exhibiting New York's gifts from France.

American Legion "40 & 8" units offered to drive their special locomotives from as far away as Rome, N. Y., for the Broadway parade. These are the veterans who rode in the cars marked "Forty Men-Eight Horses" that became so famous in World War I. . . To welcome the French ship, the Air Forces supplied an overhead aerial salute, even a special plane for aerial photographers. . . Radio Diffusion Francaise, the French radio network, arranged to cover every angle of the story and broadcast it back to France. . . Finally, but by no means last, were the American railroads, without which neither the friendship train nor the French thank you train could have been born. Working night and day, executives of twenty railroads mapped out the exact route of the Mercier Train through every state in the United States, generously hauling it free to as many cities as possible so that the greatest number of people could see this token of appreciation from France.

PAYS TO HAVE A BROTHER-IN-LAW

For some time it has been whispered around the Reconstruction Finance Corporation that if you wanted government loans you had to employ certain "friends" or lobbyists.

The RFC, of course, is paid for by all the taxpayers and is supposed to operate for the benefit of them all. Furthermore, loans are supposed to be granted on their merit, not through political pull or with extra cost to the man borrowing the money.

However, here is the story of a small business firm, the Strickland Furniture company of High Point, N. C., when it tried to borrow from the RFC to complete construction of a factory.

Strickland's loan application was approved by the RFC regional office in Charlotte, N. C., but when forwarded to Washington nothing happened. So Strickland came to Washington to push the loan himself.

"Regardless of which office we had appointments with," he says in a sworn affidavit, "from day to day it became increasingly obvious a Mr. Ernest Howard, who we understood was from North Carolina, was always present and raised the main objections."

Howard, chief of the RFC's business loan section, is married to the youngest sister of Frank Hancock, of Oxford, N. C. Hancock, an ex-congressman, went to school with Secretary of the Army Royal at the University of North Carolina and was a member of the sub-committee of Congress which helped create the RFC.

Finally, after getting the run-around in Washington, Strickland was advised by North Carolina friends to retain Hancock for the purpose of putting the loan through the RFC. At their first meeting, says Strickland, Hancock called in his brother-in-law. Within ten minutes Howard remarked to Frank Marks, vice-president of the Strickland Furniture Co.:

"Don't call be Howard. Call be Ernest." After that, everything was palsy-walsy, and objection to the RFC loan, vanished. Within three weeks a loan of \$225,000 was offered by the RFC, and this was later raised to \$350,000. Strickland in turn paid Hancock \$6,000, with additional fees later.

Telltale Evidence

If there is any doubt about the part which brother-in-law Howard played in the deal, the letters of ex-Congressman Hancock give revealing evidence, this column has obtained photostatic copies of these letters. On Jan. 9, 1947, Hancock reported to Strickland on his contracts with his brother-in-law inside the RFC.

"In keeping with your suggestion," the ex-congressman wrote, "I discussed with Mr. Howard the matter of incorporating Strickland Furniture company as soon as practicable and he agrees that it is the proper thing to do."

"I have been devoting most of my time to your program this week, and I am hopeful that some satisfactory decision may be forthcoming next week after Mr. Howard returns to his desk and his opportunity to discuss the amended application with the proper officials in the Washington office."

ICE SHOW OPENS AT 8:15 TONIGHT

Large Crowd Expected For Gala Revue

The opening of the 11th annual Escanaba Ice Revue at the indoor rink in the U. P. State fairgrounds is only a few hours away.

With a curtain facing them at 8:15 most skaters are at home relaxing and resting for their opening performances. Committee workers are busily attending to last minute gimmicks that have a way of showing up.

Ticket sales indicate that a large crowd will be on hand for the opening night of the colorful ice revue. Judging by rehearsal ardour, closely integrated planning and the amount of hard work entailed, the ice show should be as sleek as a corde handbag.

Out-of-town ticket sales have been large again this year and the visitors will start coming to the city for the show tonight.

The Skaters
Skating in the Alice in Wonderland fantasy of the show, with George Carroll as soloist and Eileen Torphy, Mary Alice Rasche and Jane Dutton at the microphone are:

Mary Goodreau as Alice; John Moore as the rabbit; Mary Cretens, Judy Rusha, Sandy McClellum, Barbara Ann Johnson, Bonnie Jensen, Dina Lee Stratton, Marcella Rose Johnson and Jean Casey as the spring flowers; Jackie Peterson, Judy Miller, Susie Pohl, Judy Pohl, Mary Lou Johnivan, Judy LaVasse, Vernon Jakubist, Elizabeth Loeffler, Mary Lou Paulson, Floyd Provo, Lauren Jones, Donna Martinson, Kristene Erickson, Penny Peterson, Judy Walsh, Sandra Moreau, Sharon LaCrosse, Ernest Pratt, Randol Blitz, Raymond Walsh and Robert Daigneault as animals on parade.

Peter Dube, noted speed skater, gives a one-mile exhibition after this number, following which the following skaters appear in the croquet party.

Donna Sullivan and Billy Goodreau as the king and queen; Howard Wiles as the knave of hearts; Jim Bushy as jester; Glen Anderson, Mike Lynaugh, Jim Jorgeson and Teddy Frizzell as trumpeters; Shirley Anderson, Kathleen Dagenais, Maxine Sheedlo, Patsy Sarasin, Jeanne Bowden and Janet Olson as flag bearers; Judy Mileski, Carolyn Breitenbach, Jackie Goodreau, Betty Myrsten, Kathleen Smithwick, Barbara Bertrand, Judy Norman, Natalie Frem, Norma Jean Olson, and George Gladisforce as grenadiers; and Paula Schroeder, Fredrica Sensiba, Patsy Rodman, Karen Moore, Bonnie LaComb, Judy Ann Macquillier and Janice Olson as the royal children.

The Ball
In the third portion, the masquerade ball of the Alice in Wonderland tale, the following skaters will be featured:

Dora Rose, duchess; flag bearers and trumpeters from previous number and Marilyn Cretens, Joan O'Donnell, Barbara Costley, Barbara Trams, Suzanne Larson, Barbara Peterson, Joan Nelson, Annette Ceurier, James and John Brown, Donna Mae Jacobsen, Laurel Dunklee, Dolly Perryman, Margaret Olson, Judy Hjort, Barbara Ottensman, Jovee Casey, Mary Louise Roger, Nancy Mar-

KING AND QUEEN—In the Alice in Wonderland fantasy for the Escanaba Ice Revue, Donna Sullivan will be featured as the queen and Billy Goodreau, the king. Patsy Davis will be the cat for this performance and Mary Goodreau is taking the part of Alice. Members of Escanaba Civic Theatre wrote the script for this part of the show and will narrate during the performance. This sequence will be presented as the first half of the ice revue to be presented here Thursday through Sunday.

tinson, Joan Brazeau, John Kositzki, Carol Lee Van Effen, Roger Dale Swanson, Clinton Delvaux, Mary Franks, Marie Miller, Janet DeCaire, Lorraine Olson, Donna Casey, Mary Ottensman, Mary Groop, Barbara Martinson, Janice Berrigan, Sharon Breault, Delores Kolich, Mary Costley, Grace Provo, Dennis Nelson, Carol Beck, Agnes Slevier, Bonnie Polmateer, Bertha Blowers and Janice Lund.

In the court scene of this fantasy will be the flag bearers, the king and queen, the knave of hearts, Patsy Davis as the cat, Doris Hogan as the mad hatter, Alice, and the following skaters who will be featured in the Dance of the Cards:

Jeannette Johnston, Lynn Cabanis, Judy Groos, Barbara Groos, Carol Hart, Maria Weissert, Maxine Hemil, Kay Christensen, Vincent Nelson, Dorothy Beauchamp, Mary Lou Beauchamp, Mary Ellen McMeenan, John Lynough, Pat Coyne, Judy Santimore, John Moore, Gerald Hansen, John Jaeger, Ronnie Lemerand, Juanita Pratt, Judy Hjort, James Bolm, Marilyn Johnson, Carol Westenberg, Patsy Sheedlo, Dick Johnson, Richard Delvaux, Joan Santimore, Patricia Bolm and Jackie Van Effen.

With George Carroll as announcer, the following skaters will perform in the Mardi Gras number:

Jean Polmateer, Pat Berrigan, Nancy Cabanis, Dorothy Wickland, Nancy Shapy, Donna Cuenier, Jackie Roberts, Sally Roberts, Barbara L'Heureux, Carol Abel, Donna Kidd, Marilyn Wellman, Lois Olson, Betty Nantell, Rita Hemel, Joan LaCrosse, Carol Pilon, Barbara Flanagan, Isabel

Bushy and Lorraine Provo as perouettes; Billy Cretens and Carolyn Johnson as Southern Ais; Fred Hjort, Elroy Krebb, James Bolm, Jerry Dubord, Harold Carlson, George Dubord, Dick Chouinard, Don Paterick, Bill Rodman, Earl Chevette as the piers; Cleve Moore, sr., Marvin Cartright, Louis Cretens, Cleve Moore Jr., Tommy Schwalbach, Bob Schwalbach, Ted Sura, Allen Aronson, Bob Johnson, Allie Hjort and Dan Hirn as the tates comique.

Patsy Wickland, Lorraine Gardner and John Derouin and Jim Cretens will present specialty numbers during this part of the show.

Oriental Fantasy

The 4-H number is booked as the next number on the program after which the Witham twins and George Carroll will offer vocal solos in a gay nineties revue. Taking part in the number, in addition to Marvin Cartwright, the trapeze artist, are Cleve Moore, Ted Sura, Betty Morin, Mary Loeffler, Dan Hirn, Joan LaCrosse, Betty Nantell, Allen Aronson, Bob Johnson, Jean Farrell, John Nystrom, Signe Moore, Helen and Bob Schwalbach, Helen Anderson, Bill Davis, Jim, Bill and Louis Cretens, John Derwin, Allie Hjort, June Peterson, Ruth Viau and Agnes Chartrand.

Jeanne Groos and Helen Schwalbach will present solos during this number.

The show closes with an Oriental Fantasy, under black lights. Mary Groos and Bob Schwalbach have the parts of the Chu Ming soloists. Coolies in the number are Bill, Jim and Louis Cretens, John Derouin, Bill Rodman, Harold Carlson, Cleve Moore, sr. and

Munising News

Joel Marks Award Offered By Widow

Munising, Mich. — Mrs. Ida Marks, formerly of Munising, who now resides in Milwaukee, while in Munising recently, made plans to give an annual award to an outstanding senior boy or girl in honor of her late husband, Joel H. Marks.

In discussing the arrangements with Superintendent H. A. Wood, Mrs. Marks entrusted the school with the responsibility of selecting the senior who, while in school, has been an outstanding citizen in both the school and community. It is assumed that citizenship would be shown in leadership and accomplishments in any phase or phases of school life and community life.

The award is to be started this year, and continued indefinitely as an annual honor. It will be known as the Joel H. Marks Award. Each year it will take the form of a fifty-dollar bond. Funds for the purchase of the bond for the 1949 presentation have already been supplied by Mrs. Marks.

Joel Marks was a graduate of Munising High School in the Class of 1918. The school is very glad to be able to give this award in honor of a former graduate, and believes the recognition will prove an incentive for good citizenship among students in William G. Mather High School.

Munising P. T. A. Chorus Rehearses

Munising—A group of 19 men and women are rehearsing as a mixed chorus for a part in the Joint Founders Day program of Munising Parent-Teachers association units which will be given Monday evening, Feb. 14, in Mather high school auditorium.

The group will meet again at 4 p. m. Sunday in the Mather school lunchroom for practice. Its members are:

Mrs. Evelyn Belfry, Mrs. Della Cleven, Mrs. Flossie Dauzy, Mrs. Alma Gollinger, Mrs. Margaret Korpela, Mrs. Florence Tinkham, Mrs. Alma Howlett, Miss Lois Borne, Miss Colleen Lezotte, Mrs. Carol Oswald, Mrs. Margaret LaMothe, Mrs. Frances Gosselin, The Rev. Carl Oswald, George Stevenson, Henry St. Martin, Vernon A. Floria, A. F. Ale, and Kemp Brown.

Miss Janice Ragen is the chorus director and Mrs. Verna Gatiss the accompanist.

R. N. A. INSTALLS
Munising—New officers of the Royal Neighbors Lodge were installed at a meeting Thursday night in the Fraternal hall. Mrs. Margaret Jones, of Pellston, district deputy, was the installing officer.

jr., Lyle LeCaptain, and Marilyn Cartwright.

Nancy Larson, Verna Poquette, Shirley Beauchamp, Marilyn Kenneally, Betty Lemerand, Marilyn Alsten, Barbara Nault, Mary Bodarie, June Peterson and Jessie Pierce will skate as the maids. Charters will be Sandra Shipman, Carolyn Johnson, Elaine Beck, Dora Rose, Ivan Johnson, Annette Poquette, Beverly Feldstein, Janet Nelson, Patsy Buzzell and Connie Gray.

WHACKY WINTER MAKES PEOPLE DO STRANGE THINGS—When Cleveland, O., City Councilman Henry W. Speeth, urged that the city should use bathing girls to publicize its unusually mild winter, Erlene Trent, took him at his word. She applied for the job, but Speeth

wasn't home. He was headed for the beach. Meanwhile, a 74-inch snowfall created drifts up to 17 feet deep at the mountain resort of Lake Arrowhead, Calif., at right. So Bob Dexter, left, and Tony Crowder had to set to digging to find their automobile.

Anti-Tooth Decay Chemical Cannot Be Used in Sugar

Boston — Hope of preventing tooth decay on a mass basis by adding a rare chemical to sugar at the refineries fades with the latest report from research laboratories.

The rare chemical is glycer-aldehyde. When added to a standard test ration for rats during a 14-week period, the chemical failed to slow the usual rate of tooth decay or curb its extent, Dr. James H. Shaw of Harvard School of Dental Medicine here found.

A strain of rats specially bred for susceptibility to tooth decay at a rate approximately that of humans was used in the studies. On a standard purified diet decay will appear in these rats at predictable intervals.

The only two pounds of glycer-aldehyde in the world were obtained for the Harvard studies by Dr. Robert C. Hockett, Scientific director of the Sugar Research Foundation.

Not Rubbery
A rubber tree is no more limber than any other tree. The hevia, most common of the rubber producers, grows 60 feet tall, and straight as a walnut.

students of the Sacred Heart school Tuesday morning with a special program honoring the Rev. G. F. Harrington, pastor, on the 20th anniversary of his entering the priesthood.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Munising Citizens Attend Conference

Munising, Mich.—Rev. Father James MacNaughton, Mrs. Adolph Stebler, Miss Madge Mayforth, Kenneth Bakkum, and H. A. Wood attended a conference in Newberry Monday on the "topic, 'Organization for Community Self-Help.'"

This was organized by the Extension Service of the University of Michigan, and was sponsored by the Newberry Parent-Teachers Association.

The topics considered were:

Joint Planning for Community Health; Community Studies; Rural-Urban Relationships; How to Coordinate Community Effort; School Re-organization; Money Raising for Community Projects.

MUNISING BRIEFS

Mr. and Mrs. Ennio Korvela are the parents of a daughter, born Jan. 28 in Munising hospital.

The Munising Conservation club will have a dinner and business meeting at 5:30 Sunday afternoon at Old Joe's Place, in Limestone. There will be a rabbit hunt starting in the morning.

Girl Scout Troop Picks New Officers

Munising—Girl Scouts of Troop 8 have elected the following new officers for this year:

President — Alice JesJardin; vice-president, Patty Dougherty; secretary, Florence Lezotte; treasurer, Wini Kee; scribe, Patsy Wilder. Mrs. Russell Wilder and Mrs. Lawrence Fulcher are the troop leaders.

Grand Marais

Grand Marais, Mich.—Ora Endress has returned from Detroit where she attended funeral services for the late Aladore Mel-drum. Mrs. Endress who accompanied her son is remaining in Detroit for several weeks' visit with relatives there.

Mrs. Frank Meade is a patient at St. Luke's hospital, Marquette. Rev. Fr. Joseph Belot is attending Forty-Hour Devotions at the Soo this week.

Mr. and Mrs. Robert Pugh who have been visiting relatives here for the past week, have returned to Detroit where they are employed. Mrs. Pugh is the former Beatrice Mulligan.

Gunnar Chambers, of Mackinaw Island and Ypsilanti, has been engaged by the Burt Township Board of Education to teach grades 6, 7 and 8 for the remainder of the school term. Mrs. Forest Carter has been transferred from 6, 7, and 8 to grades 3, 4 and 5. Mrs. Walter Hampton and Mrs. Frank Piel who have been substituting in the elementary grades since the resignation of Mrs. Smuck, in October, have resigned from the teaching staff.

Richard Wood has gone to Marquette where he expects to be employed.

John Seymour who spent the past month with his sister in the Soo, spent several days here before going on to Detroit where he will visit friends and relatives for the remainder of the winter.

Mrs. St. Martin and children, Leone and Gary, who have been making their home with her parents, Mr. and Mrs. Harry Bailey, left Friday for Detroit where Mr. St. Martin is now employed.

The first meeting of the newly organized St. Anne's Altar Guild, will meet at the home of the president, Mrs. James Thompson, following evening services at Holy Rosary church on Friday. The purpose of the meeting is to select committee members for the coming year's work. All members are asked to attend this organization meeting.

Mr. and Mrs. V. J. Buckland made a business trip to Nahma and called on Mrs. Carl Bergman in Manistique on Saturday.

Mr. and Mrs. T. Manisto have been making almost daily trips to Powers to be with their daughter Impi, who is in critical condition at the Pinecrest Sanatorium.

The Ladies' Auxiliary to the Veterans of Foreign Wars Post 6030 had a business and social meeting at the VFW cottage Thursday evening. They received one new member, Beatrice Mixon, transferred from the Welsh-McKenna post Auxiliary at the Soo. There were twenty-two members present. Hostesses for the social gathering were Mae Soldenski, Christine Vaudrieul, Marion Martin and Mat Rogers. John Ylimaki has gone to Kal-amazoo to work.

The Campfire Girls had planned a hike for Saturday but it was cancelled because of the stormy weather. Only four girls were present so they decided to stay indoors and spent the time listening to the records and prac-

ticing basic dances. Mrs. Theodore Senecal also explained and demonstrated now they could make a candle oddity she had on display. Ruth Schroeder, Ariene Sayne, Bonnie and Carolyn Bugg were the four members who braved the storm. A light lunch was served by Mrs. Senecal.

The VFW Post 6030 held their regular meeting, Thursday, at which time they decided to open the cottage to the teen-agers for the next two weeks. It will be kept open Saturday nights and at any other time the young folks desire. They also accepted a new member, Vito Mixon, transferred from the Soos' Welsh-McKenna Post.

Mr. and Mrs. Walter Hampton, Mrs. Ethel Hill and Sandra were business callers in Marquette Tuesday. Mr. and Mrs. Hampton also visited at the home of her parents, Mr. and Mrs. Sharp. Sandra Hill also received medical attention.

Mrs. Frank Mead is a patient at St. Luke's hospital in Marquette.

Mr. and Mrs. Robert Pugh of Detroit have been visiting their relatives here this weekend. John, Robert and Burton Masse drove up with them also and are visiting their parents, Mr. and Mrs. John Masse sr.

John Strum has returned from the Munising hospital where he has been a patient for the last month with a leg injury.

Mr. and Mrs. John Gilchrist of Saginaw spent the weekend at their cottage.

The Woman's Club held a games party at the Kozy Korner on Saturday evening. Mrs. A. S. Tullock was the chairman. The party was well attended in spite of the weather.

Mrs. Francis Thomas and son, Gary, have moved to Escanaba where Mrs. Thomas is now employed.

Mr. and Mrs. Victor Buckland and daughters, Vickie Jean and Sherry Kay, spent Sunday in Manistique with Mrs. Carl Bergman. Mrs. James Buckland returned with them.

William Troeger and Lyle MacDonald have gone to Menominee to fish for the winter.

Mr. and Mrs. Charles Beaulieu and family of Newberry spent Sunday at the home of Mrs. Pauline Tomkeil.

The Campfire Girls held a bake sale in the Home Ec room directly after the show Monday night.

Careless Smokers Cause Most Fires In Michigan Woods

Lansing, (P)—Careless smokers caused most of Michigan's forest fires in 1948, the conservation department reported.

The total loss from 1,788 fires was estimated at \$81,669, a substantial reduction from the 1947 loss of \$153,724.

Careless smokers were blamed for 622 fires doing estimated damage of \$43,000. Brush burners were held responsible for 322 fires and railroads 296. Other fire causes listed were lightning, campfires, fire-bugs and lumbering operations.

58 Years of Steady Service

DESTROYER GETS DE-COCOONED—One of five destroyers being reconditioned in Long Beach, Calif., the USS Barton has the lid removed from its funnel by sailors. The five ships, currently "cocooned," will be used to rebuild strength of the Pacific fleet. They were retired after World War II.

Peiping Residents Given No Warning As Reds Move In

(Editors Note: Peiping grew from a frontier town some 2,000 years before Christ—while ancient Egyptians still toiled to finish the pyramids. It was called Yu-Chow, and later, Yen. In 1421, it became Peiping—"Northern Capital." Conquerors have trod its streets through the centuries. But perhaps one of the strangest chapters in Peiping's history was its occupation by the Chinese Communists—reported here by Spencer Moosa, veteran Associated Press Correspondent.)

By SPENCER MOOSA
Peiping, (AP)—There was no advance notice of their coming. So Peiping's residents were surprised when two columns of Chinese Communists marched into this ancient capital.

Chinese students had been preparing celebrations to honor the conquerors. But they learned the Reds had come after most of the troops had gone to their barracks.

The students made the most of it by placarding slogans on the walls of shops—such as "Long Live the Peoples' Liberation Army." And—"Celebrate the Liberation of Peiping"—"Long Live President Mao Tse-tung"—

"Down With the Puppet Constitution."

Mao Tse-tung is leader of the Communist party in China.

Foreign photographers trying to take pictures of the Red troops were curtly stopped by political workers.

The estimated 20,000 tired troops were from the Red armies which besieged Peiping 40 days until Jan. 22, when it surrendered gracefully, and only after intermittent fighting.

The Reds had controlled the city since then, but behind-the-scenes. Shortly after their columns marched in, six Communist officers took over.

Among the spectators were many Nationalist soldiers. They didn't display the slightest ill-feeling toward their conquerors.

Armed Nationalist guards still are stationed at many street intersections. They halted traffic to permit the Red columns to pass. Scattered among the marchers were a few girls, in full uniform of cotton-padded khaki.

The Red troops were billeted without incident. Almost immediately, Red guards appeared outside many buildings.

Truckloads of Nationalist government employees, instructed to greet the Communists, drove to Hsichimen gate and shouted "ten thousand years to the peoples' Army." But they looked embarrassed.

The Communists, in quick order, took over control of the Honan Provincial government and several other Nationalist organizations, including the Central News agency and the Peiping broadcasting station.

The Reds also took over the Kuomintang (Nationalist party) newspaper, Hwa Pei Jih Pao. Anticipating seizure, two other newspapers closed down. They were Catholic-owned social welfare, and the Kuomintang Peiping Daily News.

Personals

Mr. and Mrs. George Levvis and daughter Patty visited Mr. and Mrs. Peter Hutter at Big Bay Sunday. Miss Carol Hutter who had been the house guest of the Levvis' for several days last week, returned to her home with them.

Mr. and Mrs. Arthur Wolcott and daughters Courtney and Kathy, who spent the past two weeks visiting in the Lower Peninsula, returned to their home here Tuesday.

Mrs. William Acker suffered a double fracture of her left arm and a bad gash in the forehead, when she fell on the stone steps leading from the house into the garage, Friday.

Gunnar Benson left Monday on a business trip to Chicago.

Bernard Kallio left Monday to take the "400" in Escanaba after spending a nine day furlough at the home of his parents, Mr. and Mrs. George Kallio, to go to the Air Force base in Wyoming where he is to be stationed. He was unable to leave Escanaba per schedule, as the "400" was derailed near Rock before reaching Escanaba.

Mr. and Mrs. Victor Swanson of Marquette visited at the home of Mr. and Mrs. George Levvis last Thursday.

Mrs. Larry Barber substituted in the fourth grade of the Eben school for Mrs. Thora Brown, Tuesday.

A light year is about six million miles.

Now She Shops "Cash and Carry" Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause backache, rheumatism, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Resorts Must Give Better Service To Get Share Of Business In 1949

Travel Officials Report It's "Buyer's Market"

Blaney Park, Mich.—More and better service, courtesy, advertising and promotion will be needed for resorts to capture their share of the shrinking tourist dollar in 1949, officers and directors of the National Association of Travel Officials agreed while attending an executive committee meeting here this week.

The group represented a cross-section of the American travel industry. It included executive secretaries of regional tourist and resort associations, state publicity directors, and representatives of chambers of commerce of such go-getting resort centers as Atlantic City and Miami Beach, Fla.

"It's a buyer's market now" was a comment frequently heard in the lobby and dining room of the Blaney Park Lodge during the three-day session. All agreed that "money is getting tighter."

S. Valentine Saxby of Duluth, Minn., past secretary of the National Association of Travel Officials and for many years executive secretary-manager of the Arrowhead association, said, with food and labor costs still high, it will be difficult for resorts to reduce their rates. He added that competition will have to be keener and resort operators will have to develop new ideas, better service, sanitation and hospitality.

Worked For Vic Power

Saxby, a native of England, went to Hibbing, Minn., more than forty years ago and for awhile served as secretary to Mayor Victor Power of Hibbing son of the late Hon. John Power of Escanaba. He recently retired after many years of service with the Arrowhead association, which promotes the tourist industry in the northern Minnesota and Wisconsin region.

Most resorts are planning to increase their advertising budgets in an effort to maintain last year's volume of business. This is indicated by the report of George E. Bishop, Marquette, secretary-manager of the Upper Peninsula Development Bureau, said that that advertising placed in the 1949 Lure Book totals \$50,100 and compares to \$44,000 in 1948. The Lure Book will cost about \$25,000 to print. Profit from this advertising and the \$25,000 appropriation from the state will enable the Upper Peninsula Development Bureau to embark upon an extensive magazine and newspaper promotion program this year.

Fifty thousand copies of the 1949 Lure Book will begin rolling off the press about April 1. The first annual book, issued in 1934, had only \$15,000 worth of advertising, less than one-third of this year's volume. Bishop recalled that back in 1923 the Bureau had only 78 contributors to its support, chiefly the large lumbering and mining companies. Today, it has 912 contributors through advertising and membership fees.

J. J. (Joe) Bachunas, operator of a chain of five resorts from Blaney Park, Mich., to Norris Park, Tenn., predicted there will be a heavy demand for house-keeping cottages this season as vacationists seek ways of making their travel dollars last longer.

Conventions Big Business

M. W. Dodson, director of public relations of City of Atlantic City, presented some statistics showing that conventions are big business in the New Jersey seacoast city. More than a quarter million people attended 508 conventions in Atlantic City in 1948. Along with the summer vacationists, they left an estimated \$607,000,000 in the hotels, restaurants, stores and play spots. For this year, Albert H. Skean, Atlantic City's ace convention-getter, has more than 600 big meetings already lined up.

Dodson said the average convention visitor spends \$40 a day and stays four days in Atlantic City. Only the larger meetings, which pull in from 10,000 to 40,000 persons, are eagerly sought. No effort is made to get the national Republican and Democratic conventions, since it is felt it is not worthwhile to pay the huge bonus demanded by the national party committees.

Atlantic City has imposed for the last three years a three per cent luxury tax on hotels, amusements, beverages and tobaccos to raise about \$1,700,000 annually for civic improvements, such as playgrounds, boardwalk and beach repairs. It is proposed this year to allocate 10 per cent of this revenue for advertising to augment the \$180,000 appropriated by the city from the general fund and the half million dollars expended by the hotels.

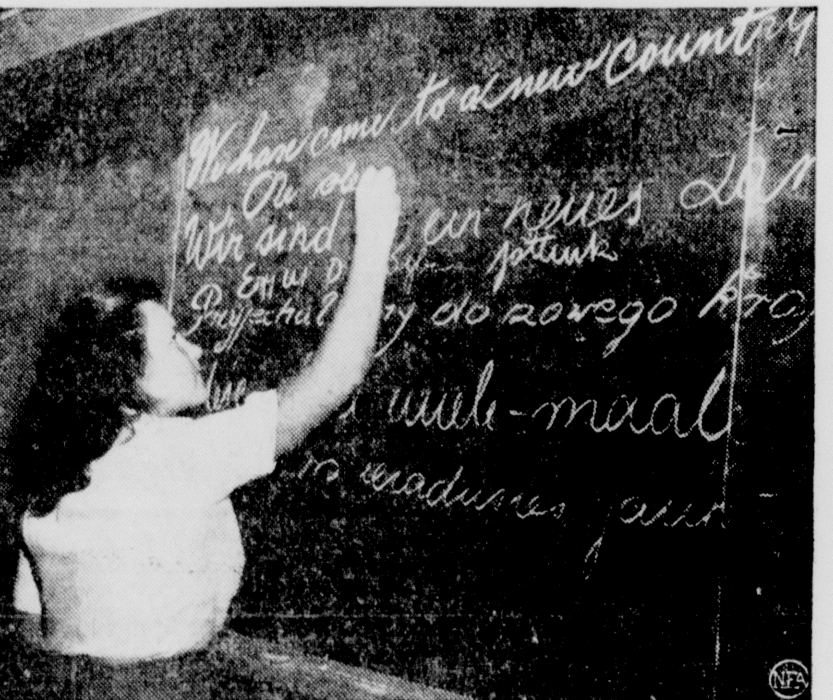

Bert Leiper of Chattanooga, Tenn., executive director of Chattanooga, Inc., said that one and a half million tourists visited the Smoky Mountains region in 1948, and early registrations at the National Park Service headquarters at Gatlinburg, Tenn., indicate a heavy traffic for the coming season. Ten large artificial lakes created by TVA dams on the Tennessee river and 16 storage dam reservoirs on tributaries are now filled with bass, walleye, and crappies that are attracting many fishermen. Boating also has

DP's Find Refuge in Canada

Over 50,000 DP's have found a new lease on life in Canada, which has admitted more displaced persons than all other non-European nations put together. Many thousands more "near DP's"—persons from war-weary localities—have swelled Canada's postwar immigration. These three youngsters, now on an Ottawa farm, came from the Netherlands. They are Arnoldus, Henricua and Wilhelmus van Moorsel.

Blackboard of Many Tongues

One of the more than 50,000 DP's who have found a refuge in Canada, this girl begins to learn English at a Canadian citizenship class. The blackboard contains writing in German, Slavic, Polish, Norwegian, Dutch and Estonian.

grown in popularity in the TVA area.

"Our fish grow fast down there," said Leiper. "In four years our bass will attain the maturity it would take seven years up in this country."

There were more tourists in California during 1948 but they were spending less, Clyde Edmondson, San Francisco, general manager of the Redwood Empire association, reported. The Redwood association's region comprises nine counties in northern California and one in Oregon. Edmondson said the association spends from \$140,000 to \$150,000 for recreational advertising. A million-dollar advertising bill, in which regional associations and communities would participate on a matching basis, recently was introduced in the California legislature.

More Traffic, Less Spending

Lewis Cobb of Denver, director of publicity of the state of Colorado, estimates \$130,000,000 was spent by two and a half million tourists in Colorado in 1948, as compared to a lesser number, estimated at two and a quarter million, who expended about five million dollars more in 1947. Keen competition for the tourist dollar was forecast by Cobb, who said that the Colorado legislature appropriates \$50,000 annually for advertising and promotion.

Cobb said that considerable "Texas money" has been invested in Colorado dude ranches, tourist courts and other business ventures. Immediately after the war, \$20,000 resorts were selling for \$60,000, but the boom has since subsided.

Everett F. Groaton of Augusta,

executive director of the Maine Development association, in discussing the travel business, said "the easy money is gone and folks are beginning to cut luxuries." While the American people will still be taking their annual vacations, according to Groaton, they will shop around for the best values. Groaton said the 1948 business was off slightly from the 1947 figure. The first state in the Union to appropriate funds for advertising back in 1925, Maine now has an advertising-promotion budget of \$234,600, financed by the legislature. This fund is used for advertising agriculture, recreation, seashore fisheries and industry.

Patterson Estate Settled; Daughter Accepts Lump Sum

Washington, (P)—The Patterson will contest has been settled with a lump-sum payment of between \$400,000 and \$500,000 to Mrs. Felicia Gizeyka, the Washington Post says.

The settlement, an unnamed informant said, did not give Mrs. Gizeyka any voice or interest in her late mother's newspaper, the Times-Herald.

Mrs. Eleanor Patterson will have her only daughter a life income of \$25,000 a year. Mrs. Gizeyka, charging her mother was of unsound mind, sued to break the will. She waived her claim to the \$25,000 the Post said, in an out-of-court agreement reached Friday.

Mrs. Patterson's estate has been valued at nearly \$18,000,000.

Livestock Auction Rings Are Expanding In U. S.

By MICHAEL J. SAADA
(The Wall Street Journal)
Cortown, N. J.—A thriving livestock auction ring converts this 800-acre "spot" from a population of near zero six days a week into a bustling community of 10,000 people every Tuesday.

Two In U. P.
The Upper Peninsula has two auction rings, both operated by the Cloverland Livestock Sales company at Rudyard and Escanaba.

Farmers come from fifty miles around to offer their cattle, calves and pigs on the "block" to butchers, small wholesalers and packers' representatives. Between 500 and 1,000 buyers and sellers gather in the two huge "rings" for the auction ritual. While they're at it, wives and children—and farmers who have already sold the day's haul—hunt bargains along a "midway" of stalls and in a barnlike building open for one-day business.

Farmers and merchants hawk anything from carrots and clothing to trinkets and trumps, with used cars thrown in. Carnival games and medicine shows provide plenty of county fair flavor here on the South Jersey flats about 25 miles from Philadelphia.

Cortown, which handles some 700 head of cattle, calves and pigs every Tuesday, is typical of the hundreds of livestock auction markets which have sprung up in rural America in the past decade. Today there are over 2,000 of them doing an annual volume of \$2 billion. That's nearly 25 per cent of the country's entire livestock business.

The "rings" are sprinkled around the country—"in any state where you find cattle," says A. Z. Baker, president of the American Livestock Association. Texas alone has 160 auctions, a good third more than it had in 1943. One California operator estimates the number in his state has increased five-fold during the past 10 years; some animals are even brought in from Oregon and Idaho.

Markets Mushroom
Many new auction rings mushroomed in Virginia, Kentucky, Tennessee, New Mexico, Nebraska, Kansas, Wyoming and the Dakotas during the heyday of O. P. A. It was easy for price controllers to keep an eye on big stockyards, but next to impossible to watch all the auctions. So the "rings" flourished and have since tightened their grip on the business.

The local auction gives the farmer with a few head of cattle a convenient market place and often a better price than he could get by shipping his stock long distances to packers and stockyards.

Farmer Alvin String keeps a radio in his barn so he can listen to livestock prices in the big Chicago market every Tuesday morning before leaving for the Cortown auction.

"By selling my livestock at auction, I often get a dollar or more per hundredweight more than Chicago prices," he relates. "If I sell direct in central markets, I have to take what's offered."

Lewis Sickler of Woodstown, N. J., likes the auction idea, too. "I

see my cow being sold. If I don't like the trend of bidding, I can stop the sale," he says. Mr. Sickler offers about 80 calves a year on the block at Cortown.

A Great Help
H. G. Lawson, Texas cattleman and one of the three owners of the Lubbock Auction & Commission Co., at Lubbock, says the auction system is a great help "to the small cattle raiser who is reluctant to shoulder the additional expense of hiring a truck to haul five to 12 head 300 miles to Fort Worth."

A year ago the Lubbock auction, once the country's biggest, was forced to curtail operations to two days a week from five, because of competition from new auctions nearby. Nearly every town in that part of Texas now has its own auction. But Lubbock still turns over 2,500 head on Thursdays and 1,800 on Tuesdays.

Small local packers, butchers and meat wholesalers account for about 50 per cent of the buying at auction rings. Sandy Rose, who operated a South Philadelphia butcher shop, is a typical Cortown patron. His weekly purchases average 25 head. He trucks the livestock to a waterfront slaughterhouse in the Quaker City.

"Competition of the big packers some days runs up my bill, but it balances out in the long run," Mr. Rose reports. "It's a good bit cheaper for me than buying from a packer. Also, I know when the animal is killed and can judge my seasoning period accordingly."

Frank J. Gazzara, meat wholesaler of Hammontown, N. J., who has his own slaughterhouse, figures he saves as much as \$75 a week by buying at local livestock auctions.

A Social Event
The cattle auctions are more than just markets. They've developed into social events, like a Saturday night in town. Farm families get a chance to chat with neighbors and the luxury of killing a whole afternoon and evening. At last week's auction in Cortown, 3,500 automobiles were "clocked" at the parking lot. Cortown's business has boomed since 1940. Howard "Stone"

SIGNALS FOR COAL—Unidentified farmer stands near huge "L" drawn in snow on his snowbound farm west of Omaha, Nebraska. The symbol indicates to "Operation Snowbound"

pilots that he is in need of fuel. A system of signals has been arranged by which inhabitants of the blizzard-stricken area can inform relief pilots of their needs. (NEA Telephoto)

Airborne Military Darkroom Utilizes Assembly Line Plan

Dayton, Ohio—Airborne photographic laboratories, equipped with a new processing machine capable of turning out 20,000 complete prints in a day, are promised for quick work in forward military areas. The complete, compact dark room would occupy the detachable fuselage of a Fairchild C-120, a version of the Flying Boxcar.

This type of plane has been compared with the modern truck-trailer from which the cargo carrier

is quickly detached from the power unit. However, it is not a trailer. The cargo body is attached tightly in place snugly under the special plane itself, the built-in body of which is entirely for power and crew. The plane can land the cargo body wherever wanted, and then take off to pick up another body, or to travel to where needed without a cargo fuselage.

The wapiti—frequently confused with the elk—was once the most wide-ranged of American hoofed game animals.

How To Hold FALSE TEETH More Firmly In Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store.

COPPER SCRAP BEING TREATED

Extends Life Of C&H Leaching Plant

Houghton, Mich.—The secondary department's treatment of scrap at the Lake Linden leaching plant of Calumet & Hecla is a boon to the life of that plant. The decrease in copper production at the plant, due to curtailment of sand leaching is eased by increased production from treatment of scrap, which will greatly prolong the life of the plant beyond the point expected when it was built.

Scrap material has been treated at the plant for several years. During the war the government sponsored a program of reclaiming copper from gilding metal scrap, a copper-covered steel from which bullet jackets were made. Many different types of scrap have been treated since that time, and the recovery of copper from scrap by the leaching operation is recognized as an important source of copper production.

The leaching process is particularly suited to such scrap as old motors, armatures, or even the complete generators or starters from automobiles, old telephone parts, copper clad steel wire, or other combinations of copper or

Physicists Check On Cosmic Rays In Caribbean Cruise

Minneapolis (AP)—Two University of Minnesota physicists and a pair of General Mills, Inc. balloon experts are currently conducting cosmic ray experiments for the Navy over the Caribbean Sea.

The scientific party is aboard the aircraft carrier Saipan in the area south of Cuba. It is equipped with a number of plastic balloons, capable of soaring 100,000 feet up carrying instruments which measure the rays.

The university said the instruments have been waterproofed and equipped with floats for recovery from the water when the balloons are deflated by automatically timed valves. General Mills heretofore has sent up numerous balloons of the same type from Camp Ripley, near Little Falls, Minn.

Accompanying the party are Dr. Frank Oppenheimer and Dr. Edward Ney of the university, and Henry J. Stinger and A. T. Bau-

steel where the copper part can be exposed to the leaching solution. The resale value of the steel scrap remaining after removal of the copper helps to pay the leaching plant cost and the high freight on moving scrap to the Copper Country from all over the United States.

man of General Mills Aeronautical Research Laboratories. General Mills officials said Dr. Marcello Vidalde of the University of Chicago, and Dr. Serge Gollan from the National Atomic Laboratory at Brookhaven, N. Y., are also aboard the Saipan.

General Mills said radar equipment aboard the Carrier and fliers in helicopter and torpedo planes were being used to track the flight of the balloons.

OLD PERFUME
When Howard Carter opened the tomb of King Tutankhamen, he found many rich cases holding perfumes still elusively fragrant after many thousands of years.

The legend of the Wandering Jew was first given in a pamphlet printed in Leyden in 1602.

Silver Wedding
Party Given For
Severin Bucklands

Mr. and Mrs. Severin Buckland, 1421 North 22nd street, were honored at a party, arranged in observance of their silver wedding anniversary, Monday evening at the home of Mr. and Mrs. Paul Brazeau, who were their attendants at the wedding 25 years ago. Fifty guests were present.

Cards and other games were played followed by a buffet supper, with a large wedding cake centering the pink and white appointments. Mr. and Mrs. Buckland were presented with a lovely gift.

The party was arranged by Mrs. Arthur Buckland and Mrs. Paul Brazeau and assisting were Mrs. Ed Carlson and Mrs. John Sandberg.

Mr. and Mrs. Buckland were married in Escanaba. Their family includes four children, Mrs. Eugene VerHamme of Gladstone; Robert, Escanaba, and Arlene and Russell at home, and one grandchild, Michael Gene VerHamme.

B. & P. W. Meeting
At Rapid River

The Escanaba Business and Professional Woman's club will hold a dinner meeting at Jack's Cafe in Rapid River Tuesday evening. Members will leave from the Sherman hotel here at 6:15. Reservations which must be in by Saturday may be made with Marie Peters at 296 or 950W.

Utilizing Spare
Time a Problem

BY RUTH MILLETT
NEA Staff Writer

"Once active in war work, the women of San Diego, Calif., could not keep their hands still after the war; they formed a Button Club, whose members are making miniature cactus gardens sewed onto large buttons, to be distributed to naval hospital patients," says the outline under a newspaper picture of a group of women at work around a large table.

It's rather pathetic, isn't it, that women who did real honest-to-goodness work during the war years, in peacetime have to keep their hands busy by making button gardens?

It wouldn't be so bad if it were only one group of women who had come to such useless busy-work. But all over the country women, who were needed and useful during the war years, are hunting around for ways to keep their hands busy to give themselves a feeling of usefulness.

Stimulating?
Most of the work they hit upon is about as essential as making button gardens, and just about as mentally stimulating and soul-satisfying.

Somehow, women just aren't very good at figuring out real work for themselves. In times of emergency, jobs are there waiting to be done. They're told what to do and they do it willingly.

It's really too bad that, in peacetime, there is no great national effort that utilizes the spare time of the women of the country.

If there were, think of the great good that they could do.

Social Situations

SITUATION: Your husband is rather quiet and reserved, especially when he is in a crowd he doesn't know well—while you feel perfectly at ease in any group.

WRONG WAY: You do all of the talking for both.

RIGHT WAY: Try subtly to draw your husband into the conversation, instead of pushing him into the background by doing all of the talking yourself.

SITUATION: You have been invited to share a holiday meal, served in the middle of the day, with a friend's family.

WRONG WAY: Plan to leave right after the meal.

RIGHT WAY: Assume that your hostess will expect you to stay for at least part of the afternoon.

SITUATION: You are telephoning an acquaintance to see if it is convenient for you to call.

WRONG WAY: Say, "What are you doing this evening?"

RIGHT WAY: Say, "If you are going to be home and not too busy, I thought I'd come by to see you tonight."

Sgt. Rudy Kozar has left to report at Selfridge Field, Mount

Wells P-T Unit
Holds Founders'
Day Observance

The Wells Parent-Teacher association observed Founders' Day at its meeting last evening at the school.

The program included folk dances by Mrs. Mabel Moras' third and fourth graders, a play, "Burn Candle, Burn" by Mrs. Frances Krantz' fifth and sixth grade pupils and a quiz explaining the Parent-Teacher association and its growth presented by Miss Amy Johnson's seventh and eighth graders. The program closed with assembly singing.

At the business meeting the nominating committee for the spring election was named, Mrs. Walter Casey, chairman, Mrs. Louis Dufour and Mrs. Gaylord Blake. Members who volunteered to aid with the mobile health unit which will be in Wells Feb. 11, are Mrs. William Casey, Mrs. Walter Casey, Mrs. Sam Petrie and Mrs. Marvin Vanderville.

The cakewalk awards went to Bernith Terrian, Alphonse Janchenko, Mary Lou Gamble and Mrs. Sam P. Petrie.

Social - Club

Foresters Meeting
W. C. O. F., Holy Family Court 56, meets at 8 p. m., Friday at the home of Mrs. Mary Kelly, 305 South 13th street. All members are requested to attend.

Guild Sponsors Shower

Births

Mr. and Mrs. Hector Germain, Escanaba Route One, are the parents of a son, weighing five pounds and eleven ounces, born February 1 at 11:15 a. m. at St. Francis hospital. The baby is the second child in the family.

Mr. and Mrs. Glenn Lehigh, 213 North 14th street, are the parents of a son, their fourth child, born February 1 at 4:52 p. m. at St. Francis hospital. The baby's weight was five pounds and twelve ounces.

Mr. and Mrs. R. Stanley Hill, Route 2, Box 1111, Lafayette, Calif., are the parents of a baby girl, Lorrie Ann, born Feb. 2 in California. The baby weighed seven pounds five ounces. Mrs. Hill is the former Miss Hazel Berglund, of Escanaba.

Way to a Man's
Heart Changed

BY RUTH MILLETT
NEA Staff Writer

"What we need are more homey girls—the kind who realize the way to a man's heart is through his stomach," says the founder and national president of the Widows and Widowers Club of America.

Well, what we've got are smart girls who know that the old saw about the way to a man's heart being through his stomach is completely out-dated.

In picking their mates young men today aren't the least bit interested in whether or not a girl can cook. They are much more interested in figures than food.

And they stay that way after marriage. Any honest husband would rather have a trim wife, one who keeps her girlish figure through the years, than a champion pie maker who gets chubby nibbling as she cooks delicious dishes.

Trim Pop, Too

And that's not all. Papa is also interested in keeping his own waistline down.

If Mama is too good a cook that's a problem. Just let a husband try saying "No, thanks" after his wife has labored over a rich dessert.

The truth of the matter is that men are as diet-conscious as women these days. And because of that the art of cooking is no longer an important art.

So let's just toss that old saying about the way to a man's heart into the discard. It may have been true in grandma's time, but not so in our time.

Summer Vacation
Still Good Idea

By RUTH MILLETT
NEA Staff Writer

A Florida educator is proposing a 12-month school year for children, arguing that the standard three-month vacation "makes as much sense as the horse-drawn streetcar."

Maybe the long, lazy summer vacation is out of tune with our speeded up way of living. But youth of today love it just as much as their parents and grandparents did.

And maybe they need that summer vacation even more than children did in the old days. After all, they're rushed and pushed around an awful lot during the school year.

It's only during the no-school season that kids get a chance to get out from under adult supervision long enough really to be kids.

Why Deprive Them?
So why should we take that wonderful long summer vacation away from them?

It would probably be easier on Mama to have the youngsters in school 12 months instead of nine. And the children could, of course, get their book education faster that way.

But where's the fun in such a plan? What will the boys and girls have to look back on when they're men and women, if we force them to go to school five days a week, 12 months a year

Today's Recipes

Betty Newhouse of Nahma has a recipe for a delicious banana cream pie which she has sent the department following a recent request for it.

Banana Cream Pie

1 cup milk
1 tbs corn starch
¼ cup sugar
1 tsp salt
2 egg yolks or 1 whole egg
1 teaspoon vanilla
3 bananas
1 baked pastry shell

Scald the milk. Mix the corn starch, sugar and salt and add hot milk slowly. Cook in the top of a double boiler for 20 minutes or until thickened. Beat the egg yolks or whole egg and add slowly to the milk mixture, stirring rapidly. Cool and add vanilla. Peel and slice bananas. Place a layer of bananas in the bottom of the baked pastry shell. Cover with cream filling, then another layer of bananas, topped with the cream filling. Cover with meringue and bake in slow oven 325 degrees, for 30 minutes.

until they are old enough to go to work?

After all, everything else may change with the times. But children don't. They're just as they were back in the days of the horse-drawn streetcar.

Lahti-Wertanen Wedding
At a ceremony performed in the parsonage of the Zion Lutheran church of Marquette Saturday morning, January 29, by the Rev. A. L. Maki, pastor, Miss Beatrice Lahti, daughter of Mrs. Frank Salo, jr., of Eben and granddaughter of Henry Lahti of Chatham, became the bride of William Wertanen, son of Walter Wertanen of Negaunee.

The bride was attended by Miss Bernice Leppanen of Eben as maid of honor and Miss Ida Joki of Negaunee as bridesmaid. Best man was Norman Heikkala of Negaunee. Miss Joki's escort was Paul Aho of Eben.

The bride wore a white satin gown made with a fitted bodice, long sleeves which tapered to points over the hands, a round neckline and a short train. Her fingertip veil or illusion was fastened with a tiara of orange

blossoms and seed pearls. She carried a bouquet of pink roses and white pompoms.

Miss Leppanen wore a blue taffeta formal with a pink shoulder corsage.

Following the ceremony, dinner was served at the Midway for the bridal party. In the evening a wedding dance and shower party was given at the Eben hall. Kayes' orchestra of Rock furnished the music for dancing. The couple received many lovely gifts.

Mr. and Mrs. Wertanen left Sunday on a wedding trip to Detroit and other cities in the lower peninsula.

Mrs. Wertanen is a graduate of Eben high school, class of '48. Until the time of her marriage she was employed as a stenographer in the Michigan State College Experiment Station office at Chatham.

Mr. Wertanen is a graduate of the Negaunee high school, class of '41. He is employed in the Athens Mine in Negaunee. The couple will make their home in Negaunee.

"Old Man Of The Mountains"
The chief of the Assassin sect, in 11th century Persia, bore the title of "Old Man of the Mountains," according to the Encyclopedia Britannica.

About one-tenth of the population of the United States is Negro.

conduct the ceremony in John Viergever's troop while Paul Sobel, Manistique's Scout commissioner, will conduct a similar ceremony in the newest troop in town of which Sid Bouwers is Scout master.

Other pins will be awarded to Scouts of higher rank. Newcomers into the organization will receive the Scout card which entitles them to all the privileges of the Scouting organization.

A movie will be shown, presenting one of the many phases of Scouting.

Every effort will be made locally to make the local Scout program live up to the year's slogan: "Adventure—That's Scouting."

LOCAL MEN ON VET COMMITTEE

To Act On Reemployment
Rights Of Vets

Secretary of Labor Maurice J. Tobin today announced in a special message to the Daily Press the appointment of William J. Sheahan and Arthur F. Hall of Manistique, as volunteer Veterans' Reemployment Rights Committeemen with the Bureau of Veterans' Reemployment Rights under the Selective Service Act of 1948.

The duties of volunteer committeemen are to assist returning veterans in securing proper reinstatement to their pre-service positions, upon request to advise employers of their responsibilities under the law, and to advise employer, labor, veteran, or other interested groups of the reemployment provisions of the Selective Service Act of 1948.

The committeemen will continue to serve veterans of World War II who are seeking their reemployment rights under the Act of 1940. Commenting on these appointments Secretary Tobin paid high tribute to the thousands of volunteer committeemen throughout the country who have been of inestimable assistance to returning servicemen in securing their proper restoration to their former positions.

(EDITOR'S NOTE—Limit communications to 300 words. Letters must bear signature and address. Name must be published.)

POTATO SHIPMENTS

The Daily Press: I was very much interested in the article appearing in a recent issue of your paper regarding the number of cars of potatoes shipped from Michigan and Maine under government order. Unless my information is very much wrong, and I don't think it is, the number of cars of potatoes shipped from Michigan from the 1948 crop should have been 1300 or more cars instead of 300. Up to date about 1500 cars have been shipped under government order from this state.

Schoolcraft county has shipped, through the government, more cars than we had ever shipped in

MAKING DEMOCRACY WORK—De Witt Wallace, left, editor of The Reader's Digest, hears George I. Hall, Grand Exalted Ruler of the Benevolent and Protective Order of Elks, outline the Order's campaign to help the nation's schools teach democracy. Elks lodges are equipping their local schools with sets of "Our American Heritage", filmstrips that dramatize the birth and development of our democratic freedoms from Magna Charta to the present, bring the Freedom Train right into school rooms. The campaign is part of Elks' program to "make democracy work." The Digest produced "Our American Heritage" at request of the National Education Association and The American Heritage Foundation, sponsor of Freedom Train.

one whole shipping season in previous years. How many cars have been shipped from Maine, I cannot say. Our main trouble seems to be lack of storage facilities to keep the potatoes until the orders come through for shipment. The Commodity Credit Corporation must have an outlet for potatoes before shipment can be made, and it is very unreasonable to expect them to take care of the surplus all at one time. For every government car shipped there should average about four cars for private sales. This does not seem to be working out in this county so far.

We need more storage capacity—dealers and growers, alike. Perhaps a co-operative storage could be built near the depot at Cooks or at Manistique. More advertising and more attention to grades will give us a better private market. I believe this situation is going to work out satisfactorily in time.

Peace At Last From Persistent Itch!

MRS. GONDERS PASSES AWAY

Funeral Rites Set For
Friday Morning

Mrs. Ida Gonders, a resident of this vicinity all her life, died Wednesday morning at the Wendland Convalescent Home following a long period of illness.

Mrs. Gonders was born at Cooks on May 7, 1920 and moved to Manistique with her parents when a small child, residing here ever since. She was married on April 19, 1947 in Manistique, to Elmer Gonders, who, with an infant son survive. She was a member of St. Francis de Sales Catholic church.

Surviving her are her husband and son Gordon, her father, Joseph Miron, of Thompson; a brother, Albert Miron, of Carrollton, Ohio; four sisters, Mrs. Irene Guyette, of Shingleton; and Mrs. Shirley Love, Miss Elizabeth Miron and Mrs. Ina Dahlvik, all of Muskegon.

Funeral services will be held Friday morning at 8:00 o'clock at St. Francis de Sales Catholic church. The Rev. Fr. B. J. P. Scheyers will conduct the funeral mass. The body is lying in state at the Morton Funeral Home.

Rev. Paul Sobel Presents Feature At Women's Club

A dramatic reading, "The Bomb That Fell on America," by Herman Hagedorn, was presented by the Rev. Paul Sobel, pastor of the Church of the Redeemer, Presbyterian at Tuesday afternoon's feature of the Manistique Women's club.

The selection is a free verse poem, made up of three parts, the first of which tells of the destruction of Hiroshima by the atom bomb and the responsibilities involved in that incident.

The second and third parts deal with an American who asks God to perform a miracle which would transform 135,000,000 Americans into a people who would turn atomic energy into a force for peace and good.

He finds, after self searching, that God had already endowed

man with a soul through which all good may come.

The challenging message of the poem is conveyed in the thought that in the world today there is only one thing more powerful than the atom bomb, and that is the human soul which can control the bomb.

Dr. George Shaw showed an interesting film on cancer control and talked briefly on the progress made in this field.

Ray Norberg, accompanied by Miss Nadine Westin at the piano, played three trombone solos—"Intermezzo," "Day After Day," and "The Holy City."

Hostesses for the afternoon tea were Mrs. A. W. Heitman, chairman; Mrs. Gordon Hughes, Mrs. Sidney Bouwers, Mrs. T. R. Southard, Mrs. J. R. Lowell, Mrs. M. Carlson, Mrs. A. Burkhardt and Mrs. Gordon Denny.

MEET "Chipper" A typical CO-OP MILK Baby

"Chipper" is one of thousands of healthy bottle-fed youngsters raised on CO-OP Evaporated Milk. He's the son of Mr. and Mrs. Wm. Whitsett, Jr., 1017 Conning Ave., Superior, Wis. He's now 18 months old. His parents are extremely active. Weighs 27 pounds. Is 28 inches tall. Has never been sick. Mrs. Whitsett substituted CO-OP Milk when "Chipper" was 4 months old. He was weaned at 9 months. Mrs. Whitsett heartily endorses CO-OP Evaporated Milk for baby feeding. She recommends case lot buying for economy.

Continued effort on the part of Congressman Charles E. Potter to secure better and more orderly marketing facilities for Schoolcraft county potatoes through the production and marketing administration of the federal government is indicated in a letter received Tuesday by Walter Nelson, president of the Manistique-Schoolcraft Chamber of Commerce.

The Chamber of Commerce had recently wired to Congressman Potter urging that marketing potatoes bought by the government under the price support setup, be placed on a parity with potatoes from Maine.

Mr. Potter's letter to Nelson follows: Mr. Walter Nelson, President Manistique-Schoolcraft Chamber of Commerce Manistique, Michigan Dear Mr. Nelson:

Confirming your telegram of January 27th, I have been in constant touch with Mr. Woolley, acting administrator of the production and marketing administration. Friday, he spent a couple of hours in my office discussing the potato situation in Schoolcraft county. He assured me that he would authorize the purchase of additional potatoes in that area immediately.

I sincerely hope that this condition will soon be remedied. With kindest regards, I am

Very sincerely yours
Charles E. Potter, M. C.

Variable Date

Arbor Day, celebrated in April or early May in northern states, is observed in February, January, or even December, in the southern states, according to the Encyclopedia Britannica.

ENGAGED—Miss Elaine Nestander whose engagement to William E. Lindbloom, son of Mr. and Mrs. R. J. Lindbloom, of Canton, Ill., was announced at a Christmas dinner party by her parents, Rev. and Mrs. Palmer S. Nestander of the Messiah Lutheran church in Chicago. Miss Nestander is a graduate of Augustana College in Rockford, Ill. Her fiancé served three years in the Pacific with the Navy and attended Radio Institute of Chicago. The Nestanders were former residents in Manistique, where Rev. Nestander was pastor of Zion Lutheran church.

March of Dimes
Party Saturday

The Home Economics Extension Club of Manistique township is sponsoring a party at the new town hall next Saturday evening, beginning at eight o'clock.

The party will be in the nature of a bazaar along with games, cards and refreshments, the proceeds to go to the March of Dimes fund. The public is invited. This party was originally scheduled to be held last Saturday evening, but due to the storm which prevailed at that time, the party was postponed.

Alaskan Prospector
Dies At Marquette

Val Dibold, 82, of Alaska, died Wednesday morning at 2 o'clock at Marquette where he had been visiting, according to word received here yesterday.

He was a brother of Mrs. J. P. Carlson, city, who went to Marquette early this week upon learning of her brother's illness.

Dibold, an Alaskan prospector, had come to Michigan last fall from Alaska for the first time in 40 years. He had been spending the winter at the home of another sister, Mrs. H. J. Hadrick, in Marquette.

In addition to Mrs. Carlson and Mrs. Hadrick there is a brother, George, of West Branch, Mich., and a sister, Mrs. Ann Green, who is now enroute to Arizona.

Funeral services are to be held at Marquette Friday morning.

Stolen Auto Found
Stuck in Snow Bank

A light sedan owned by Joseph Grawey was reported stolen from the driveway of his home at 1407 Minnesota avenue Tuesday evening about 9 o'clock and it was found abandoned about a block away from the home about midnight by city police.

It had been driven into and was stuck in a snow bank. Police said but little gasoline had been used and the auto was undamaged.

City Briefs

Mr. and Mrs. James Damitz left this morning for Detroit, Mich., where they will spend several days. They were accompanied as far as Flint, Mich., by Mr. Damitz's mother, Mrs. Milton Damitz who will visit there with Mrs. Forest Miller.

Mrs. Elizabeth VanWinkle left Tuesday evening for Sweethome, Ore., where she will be married to John Gregory. Enroute she visited in Minneapolis with relatives.

Find Two Youths
Broke Into Camp

State Police investigation of the breaking and entering of a camp near Brampton owned by Wilfred Leroux and Rene Lefleur, city, resulted in the apprehension of two minor youths, 14 and 16 years of age, respectively, who admitted entering the camp and removing the articles for use.

Except for foodstuffs, most of the articles taken were recovered.

Brother of Sister
Applonia Claimed

Max M. Polcyn brother of Sister Applonia, city, died suddenly Tuesday following a stroke at his home Tuesday, according to word received here yesterday. Sister Applonia, a member of the staff at All Saints' Parochial school, left last night for Russell to attend the rites.

Briefly Told

Goodwill Club—The Goodwill club will meet at the club rooms on February 10. Stanley will be there. Planned pot luck lunch will be served, and those not notified may bring cake.

Although the first wallpaper used in America was imported, by 1750 a Philadelphia manufacturer had established a good business in making them.

Conference Is Success

Representatives of 19 cities, towns and villages in this section of the Upper Peninsula attended a Community Self-Help conference held at Gladstone high school Tuesday.

Discussions in the afternoon were on the subjects: "Money Raising for Community Projects" with Carl G. Nelson, Escanaba, as chairman; "Problems of Old Age" with William S. Skellenger as chairman and "Rural-Urban Relations" with Charles Burton as chairman.

In addition to the subjects for discussion were "How to Coordinate Community Effort" with Herbert Corey of Stephenson as chairman; "Youth Problems" with Mrs. O. S. Hult, city, presiding, and "Community Organization for Health" with Walter Gries, Ishpeming, of the Michigan Social Welfare board, as chairman.

The conference was well attended and discussion sessions were entered into by a large number.

Summary of the conference was handled by Dr. Howard Y. McClusky, consultant in Adult Education, University of Michigan, who also opened the conference with a talk on "Why Are We Here?" and also spoke briefly at the conference banquet at the Methodist church.

One hundred, thirty persons attended the banquet. A group of four selections were presented by the GHS Girls' Ensemble under the direction of Irving R. Johns Jr., and were well received as were several folk stories by that mimitable teller of tales, Walter Gries. Wallace Cameron presided as toastmaster.

Cities and towns represented included Menominee, Palmer, Marquette, Ishpeming, Negaunee, Stephenson, Gwinn, Rock, Perkins, Manistique, Rapid River, Escanaba, Wells, Bark River, Powers, Carney, Michigamme, Trenary and the host city, Gladstone.

The conference was sponsored by the Gladstone Parent Teachers association and the University of Michigan Extension service. Light refreshments were served delegates in the home economic rooms at the high school at the close of the conference by the PTA.

Obituary

ISAAC JACKSON

Funeral services, largely attended, were conducted yesterday afternoon for Isaac Jackson, 72, pioneer resident of Gladstone. Rites were at the Kelley Funeral home with Rev. Clifford Peterson officiating.

During the rites several hymns were sung by Mrs. Albert Nelson accompanied by Mrs. William Nelson. Flowers were in charge of Mrs. Edward Farrell.

Bearing the body to its final resting place in Fernwood cemetery were Victor Ogren, Ed Johnson, Hugo Lundquist, Vic Johnson, August Anderson and Charles Gustafson.

Braves Invade Norway; St. Joe At Marquette; Eskys Idle This Week

'Stique Emeralds Seek .500 Rating In Game With Soo

10 Straight For Cooks! 33-27 Over Powers '5'

Six conference cage games are on tap this weekend in the Upper Peninsula's major high school basketball loops, but fans are concentrating their interest on a pair of non-conference matches, the AP reports.

St. Ambrose, of Ironwood, the quintet that made headlines last week by snapping Mass high school's record-breaking winning streak, tackles an unpredictable Wakefield five. Wakefield, the cellar club in its own league, is one of two teams that have upset the Saints, leading club in the parochial circuit and one of the classiest squads in the Upper Peninsula.

The saddened Mass Rockets will try to start anew on the victory trail. Coach John D. Wilson's fighting Finns, whose record of 59 triumphs in a row stands as an all-time state record, invade Negaunee for a tilt with St. Paul, a team they defeated with ease earlier in the season.

'Stique at Soo Three games are scheduled in the Great Lakes conference. Manistique will attempt to boost its average to .500 when it goes against the Sault Ste. Marie Red Devils. Marquette, number 2 in the conference, will play host to neighboring Ishpeming Friday.

St. Josephs of Escanaba will invade Marquette Saturday night. Negaunee, still dominating northern Michigan play with a 12-0 record, takes on Lake Linden in a non-conference set-to.

Iron Mountain will attempt to keep its perfect conference record intact when it opposes an Iron River crew that has won three and lost four in the Menominee range loop. Second place Kingsford visits third place Crystal Falls in the only other contest.

GAMES FRIDAY Manistique at Sault Ste. Marie. Gladstone at Norway. Iron River at Iron Mountain. Kingsford at Crystal Falls. Hermansville at Nahma. Stephenson at Powers. Newberry at Munising. Hurley (Wis.) at Ironwood. Mass at Negaunee St. Paul. Soo at Sault Ste. Marie. Laurium Sacred Heart at Dolbar Bay.

SATURDAY Escanaba St. Joseph at Marquette. Niagara (Wis.) at Marinette (Wis.). Marquette at Canadian Soo. Marquette Baraga at Ontonagon. Eben at Marquette Pierce.

Sports Mirror

(By The Associated Press)

Today a year ago—Dallas Ward, backfield coach at Minnesota, was named head football coach at University of Colorado.

Three years ago—Jimmy Demaret won the Tucson open golf tournament with a 72-hole score of 268.

Five years ago—Harold B. Cunningham was named head of the football department of the Navy's pre-flight training school.

Ten years ago—Tony Galento floored Natie Brown ten times and knocked him out in the fourth round at Detroit.

BASEBALL FACTORY

Albany, Ga., Feb. 3 (AP)—Just outside of Albany a baseball team prefabricating plant is ready to go into operation and turn out 13 minor league teams. The St. Louis Cardinals' baseball factory fits with room to spare on a converted wartime air force base. The seven diamonds and collection of mechanical wonders which are supposed to teach a boy to play baseball are ready for the March 14 opening. Four hundred youngsters and members of the Cardinals' chain gang will be preened and pruned during their 47 days at the big finishing school.

PUPILS PLAY PINBALL

Battle Creek (AP)—Police have arrested two merchants in a drive to halt school children from playing pinball machines in business places. Officers said three youths arrested for petty thievery said they spent most of the stolen money on pinball machines.

Twain's Burial Ground Samuel Clemens, who wrote under the name of Mark Twain, is buried in Woodlawn cemetery near the Old Quarry farm, where he wrote many of his famous stories, near Elmira, N. Y.

Not New The mechanical seeder is not a modern invention. An ancient seed from Babylon shows a seeding machine equipped with a hopper to receive and sow the seed.

Bob Grieve, Syracuse University track and cross-country coach, is former sprint king of the Western Conference

Cooks, Feb. 3—Led by Keith Cutler and Lee Walters, Cooks high school cemented its grip on first place in the Central U. P. D-E Basketball league by stopping Powers, 33-27, in a well-played game here last night.

It was Cooks' tenth straight victory of the season and it averaged a 39.28 defeat by Powers in Cooks' first game of the season. Cooks now has a 9-1 record in league competition.

Cutler, who is a sophomore by

Ted Lindsay Rings Up 100th Goal On Hat-Trick Spree

Detroit, Feb. 3 (AP)—Thumpin' Ted Lindsay of the Detroit Red Wings is a 100-goal man in his fifth National Hockey League season and the NHL leaders could be thankful today for the three-goal hat trick outburst that put him there.

The star Detroit left winger whipped the three goals past Sugar Jim Henry in 20½ minutes last night and they represented the difference as Detroit clipped the Chicago Black Hawks, 6 to 4, to stay five full games ahead of second place Boston.

It was anything but a breeze for Detroit, which counted five of the first six goals and once held a commanding 4-0 lead.

The big early cushion was nice to fall back on as the Hawks had the 13,421 customers worried with a late surge featuring their red hot scoring line of Doug Bennett, Roy Conacher and Bill Mosienko.

That line produced three of Chicago's four goals, two by Bentley, who also chipped in with an assist to hold his two-point margin over Conacher in the league scoring derby.

Bentley now leads the league with 51 points on 19 goals and 32 assists and moved even with Detroit's Sid Abel in a race to see who will become the first 20-goal man of the season. Each now just need one more.

Conacher with one goal and two assists, stayed hot on Bentley's heels with 49 points.

Detroit's sixth victory in nine meetings with the Black Hawks this season produced more than its quota of chippy contact fouls as referee Frank (King) Clancy called 14 minor penalties, three against Lindsay and two each against Adam Brown and Bep Guidolin of the Hawks and Leo Reise of the Red Wings.

N. C. State Upset By Wake Forest

New York, Feb. 3 (AP)—Wake Forest took the headlines in college basketball competition last night.

The deacons upset North Carolina State, 52 to 49, handing the defending Southern Conference champions their first conference defeat in 28 games. N. C. State's last previous league defeat was administered by Wake Forest two years ago.

Kentucky, NCAA champs and ranked No. 1 in the Associated Press poll had better luck in protecting its Southeastern Conference string. The Wildcats whipped Alabama, 56-40, for their 32nd straight SEC victory.

West Virginia extended its unbeaten home streak to 51 games by lacing Penn State, 52-28.

St. Paul May Get Amateur Puck Meet

New York, Feb. 3 (AP)—If it can meet housing requirements, St. Paul, Minn., will be site of the world's amateur ice hockey championships next year.

Otherwise, the tournament will go to some other city in the United States, the Amateur Hockey Association of the U. S. announced after an executive meeting yesterday. Boston and Lake Placid, N. Y., in addition to St. Paul have put in bids for the event.

Hockey Data

LAST NIGHT'S RESULTS National League Boston 5, New York 3. Detroit 6, Chicago 4.

Tonight's Schedule Toronto at Montreal. Detroit at Chicago.

LIONS SIGN BOYKIN Detroit, Feb. 3 (AP)—The Detroit Lions yesterday announced signing of a former Ironton, O., high school football star, Richard Boykin, 22. The rangy Negro fullback comes to Detroit club with no college football experience. He chose to take a job rather than continue his schooling.

the way, dipped in six field goals and three free throws for 15 points and high scoring honors. Walters tallied 10 on five buckets.

In the preliminary, Powers reserves won, 35-25.

Sports Briefs

St. Louis—Bill and Charles DeWitt bought the controlling interest in the St. Louis Browns, paying an estimated \$1,000,000 for the 56 per cent of stock held by Richard C. Muckerman.

New York—Yankees signed their first Negro baseball player—Outfielder Luis Marquez of the Baltimore Elite Giants.

Signed: Shortstop Pee Wee Reese, catcher Roy Campanella, outfielder Tommy Brown and infielder Eddie Miksis of Brooklyn (NL); pitcher Curt Eimmons by Philadelphia (NL); pitcher Ken Raffensberger by Cincinnati (NL).

New York—The National Football League New York Bulldogs, formerly the Boston Yanks, signed Charley Ewart as head coach.

Philadelphia—Earle (Greasy) Neale signed a new three-year contract as coach of the Philadelphia Eagles, NFL champions.

Tucson, Ariz.—Bob Winslow, assistant at U. of Southern California, was appointed head football coach at U. of Arizona.

Melbourne—John Bromwich, Frank Sedgman and Bill Sidwell were named to represent Australia in Davis' cup tennis competition.

Stephenson's Annual Reserve Cage Meet Set For Feb. 14-17

Stephenson, Feb. 3—The sixth annual reserve basketball tournament will be held at the Stephenson high school gymnasium starting on Monday, February 14, to Thursday, Feb. 17.

Five teams have entered the D-E class as follows: Rapid River, Felch, Rock, Daggett, and Carney.

Six teams have entered the C-B class as follows: Escanaba, Menominee, Gladstone, Lourdes, Stephenson and St. Joseph-Escanaba.

The Class B-C Herald Leader trophy is now held by Gladstone. The trophy will be held permanently by any school winning it for three consecutive years.

A first place trophy is given to the D-E class each year.

Individual player medals are given to all players in first and second winners in each division.

The reserve team tournament has been sanctioned by the Michigan High School Athletic Association. Richard McCarthy, athletic director, is tournament manager.

Independent Games Planned At 'Stique

Manistique, Feb. 3—Arrangements have been completed for a basketball doubleheader at the high school auditorium in which the Hermansville Silver Foxes and the Manistique Merchants will be the headliner attraction.

The other game will perhaps be just as interesting as pitted against the Manistique Paper Mill team will be a teachers' team composed of such basketball mentors as Norman Slough, of Rapid River, Babe Anderson, of Nahma and Dude Ranguette of Cooks.

The Pedagog-Paper Mill game will begin at 7:15 and the headliner will start at 8:30.

Jimmy Demaret Is 'The Man to Beat'

Tucson, Ariz., Feb. 3 (AP)—Jimmy Demaret holds sole possession of the favorite's role today as most of golfdom's big names start the first round of the \$10,000 Tucson open.

The handsome Texan likes the level El Rio par 70 layout. He's primed psychologically by beating Ben Hogan for top money in Phoenix. And he has been consistently playing sub-par golf.

ESCANABA GOLF CLASS The Escanaba golf class taught by Vial Smith and cosponsored by the adult education program and the city recreation department will meet at the senior high school auditorium at 7 this evening. The class is held each Thursday evening.

Only One Of Its Kind!

ONLY UNDEFEATED SQUAD LEFT—Only major college basketball team still undefeated this season, Hamline University's Pied Pipers check blackboard showing latest casualties of cage wars. Shown (left to right) are: Duane

Meyer, forward; Bob Leiviska, guard; All-American Hal Haskins, forward; Vern Mikkelsen, center, and Joe Hutton, Jr., guard. (NEA Telephone photo)

ESCANABA DAILY PRESS SPORTS "It Seems To Me" BY JIM WARD

Well, the Escanaba Hawks got a going-over in Gladstone last night, and inasmuch as it was the Hawks' fifth successive defeat and an ignominious shutout at the hands of their No. 1 rival, it was a bit hard to take.

The only plausible thing to do is to try to figure out why the Hawks are finding it hard to win.

We should like to go on record as saying that the chief reason why the Escanaba Hawks and the Newberry Bunyans are falling behind the pack in the U. P. Hockey league chase is that they are the only two teams in the seven-team league without a large rink.

By large, we mean any rink whose dimensions are approximately 180 by 80 feet. That is a hockey rink and is considered more or less standard wherever hockey is played. Regulation is 200 by 85, but only Montreal and Toronto meet those specifications. Other vary, but 180 by 80 is considered a good-sized hockey rink.

Newberry is at the bottom of the U. P. Hockey league. Newberry's rink is a nice little rink, but it is a little rink, a "crackerbox" by comparison with 180x80 standards. As we recall the Newberry dimensions, they are about 160 by 65.

Escanaba is next to the bottom in the U. P. Hockey league. Escanaba's rink is a nice little rink, a perfect place to hold ice revues and enjoy public skating, but it is not a good hockey rink. It is impossible to play good, wide-open fast hockey on the Escanaba rink, because it is too small. Its dimensions are 120 by 80—60 feet shorter than a standard rink.

The tendency on such a small rink is for the game to develop into a shinney-type of hockey. Twelve players bunched up on a 120x80 ice surface are bound to collide, and passes necessarily are short. The game becomes a battle to see which team can score the most from scrimmage or rebounds.

A certain amount of that is all right in hockey, particularly for new hockey fans who like to see wild scrambles in front of the net, but it is not the best hockey. Shinney-hockey on a small rink also is more dangerous because players are bunched up and collide more often.

Soo, the two Marquette teams and Stambaugh are setting the pace in the U. P. league simply because they have developed fast skaters and an effective passing game on large ice.

Gladstone is developing rapidly because it has a fine 180 by 80 boarded-up outdoor rink on which to practice, play and learn the "big" game of hockey. Gladstone is past the shinney stage, and as they are learning more about the open game, they are passing the Escanaba Hawks.

When hockey was new to Gladstone and the Indians played on small ice like the Hawks, the Escanaba sextet used to win steadily, but since the Indians have worked on larger ice, they are improving immensely. As a result, it isn't routine for the Hawks to beat the Indians any more. On the contrary, they have to be at their best to win.

Soo has Pullar stadium. Marquette has the big Palestra. Stambaugh and Gladstone have large outdoor rinks—all approximately 180 by 80 feet. Even Newberry's rink is 40 feet longer than the Escanaba rink.

So the Hawks find themselves at a disadvantage whenever they meet a U. P. league foe.

They're being left behind in the race because they do not have the rink on which to develop fast skating hockey players and a fast passing attack.

On a small rink, the tendency is to pass directly to a player. On big ice, players learn to lead their passes so that the recipient can skate into the puck, pick it up easily and not have to scramble for the puck at his feet.

Deficiencies of younger Escanaba players coming up are noticed whenever the Hawks play on a larger rink.

This is not an alibi for the 1949 Hawks.

This is intended as a solid argument for a larger Escanaba hockey rink for the benefit of Escanaba players, teams and fans in the future.

Trainer Jim Fitzsimmons has stabled horses in the same barn at Hialeah every winter since the rebuilding of the track in 1931.

21 Billiard Aces In National Meet

Chicago, Feb. 3 (AP)—A field of 21 top ranking billiard players is entered in the seven-day national three cushion and pocket billiard tournaments opening tomorrow.

A three-day double round robin meet against Willie Hoppe and Willie Mosconi, respective world's champions, for the world's three cushion and pocket billiard titles awaits the top three finishers in each division.

DRIVE HEPBURN CAR Indianapolis, Feb. 3 (AP)—Rex Mays, one of the most heavy-footed drivers in the history of the Indianapolis Motor Speedway, has been signed to drive in the 1949 500-mile race a powerful Novi piston special in which Ralph Hepburn rode to his death last year.

Indian Uprising Tips Hawks, 5-0

Gladstone, Feb. 3.—A Gladstone Indian uprising in the third period that resulted in four goals enabled a vastly-improved Bay City sextet to blank the Escanaba Hawks, 5-0, in a U. P. Hockey league game before a large Gladstone crowd here last night.

Until that disastrous third period, the luckless Hawks were very much in the game. Art LeGault scored on an assist by Ed O'Leary midway in the opening period, and from then until a few minutes after the start of the final, the Delta county hockey rivals battled furiously without scoring.

The Hawks found themselves at a disadvantage on Gladstone's larger ice surface (the rink is 180x80 compared with Escanaba's 120x80) and couldn't quite get over the hump to dent the Gladstone net. Unused to a long rink, the Hawks' timing and passing was off color.

By no means does this detract from Gladstone's sparkling play. The Indians are developing into a fast skating, accurate passing aggregation that will give any team in the league trouble (Witness that 6-6 deadlock with the unde-

feated Soo Martins).

Taking advantage of breaks afforded by Hawk defensive lapses in the finale, the Indians piled up four quick goals to clinch their win last night. Gordon Haga scored twice on assists by Johnny Lake and Art Legault. Bob Peppin contributed one after taking a pass from Marvin "Molly" Erickson and Mel Rothschild closed the books for the night on Walter Lake's pass.

It was a surprisingly clean and fast game and well handled by Officials Wallace Cameron, of Gladstone, and Mel Bertrand, of Escanaba, who were calling them close. Neutral zone off-sides were called for the first time. Few penalties were called. Most of them were of the unintentional variety.

The Indians will be host to Newberry at 8 this Saturday night, and arrangements are being made for an Escanaba-Stambaugh game at Stambaugh Sunday afternoon.

Tomasi, Wistert Tell U-M Stories At Grid Banquet

Dominic Tomasi, captain of the 1948 University of Michigan football team, and Al Wistert, captain-elect of the 1949 team and all-American tackle of 1948, delighted Escanaba and St. Joseph high school football players and members of the Escanaba Chamber of Commerce with amusing anecdotes of the past season at the annual C-C football recognition banquet at St. Joseph parish hall last night. Approximately 200 attended.

Tomasi emphasized the strong coach-player relationship that exists at the University of Michigan and declared that this genuine mutual respect has been in no small measure responsible for Michigan's gridiron successes through the years. Tomasi particularly credited the late Fielding Yost for launching this excellent spirit, which has become traditional at Michigan.

Captain-elect Wistert, whose powerful physique and huge frame explain his gridiron prowess, told a number of amusing experiences of the Wolverines during the past two seasons. He declared that team spirit is exceptionally high at Michigan and that there has been no inter-squad jealousies or personal desire for glory.

At the conclusion of the speaking program Tomasi and Wistert narrated the Michigan-Ohio State game, which was shown in motion pictures.

James Fitzharris served as toastmaster. The address of welcome was given by Carl Nelson, president of the Chamber of Commerce. Other speakers were Coach Tom St. Germain of the St. Joseph Trojans and Coach George Rutwisch of the Escanaba Eskimos.

GEHRMANN TO RUN East Lansing, Feb. 3 (AP)—Don Gehrmann, great Wisconsin miler, is slated to run his favorite distance twice at the Michigan State relays here Saturday. Gehrmann won the Wanamaker mile last Saturday at Madison Square Garden, New York, in the time of 4:09.5. It was the best time recorded so far for the 1949 winter indoor season.

GROUNDHOG NOT WELL TREATED

Ruark Wants Fair Deal For Woodchuck

By ROBERT C. RUARK
New York—As we rejigger the house rules for the world's behavior, I sure hope somebody takes time out to consider the groundhog. If ever a wee beastie stood in need of United Nations intervention, with a whole codicil all to itself, it's the groundhog.

The groundhog (see aardvark, see woodchuck) has had his civil liberties violated ever since some imaginative Indian dreamed up that myth about spring arriving if Joe Chuck failed to spot his shadow on Feb. 2. Every year since that time a flock of newspaper people descends on the nearest chuckhole to drag the poor animal out of his sack, wrecking his rest and ravaging his nerves with flashbulbs.

It is against all inclinations of a normal woodchuck's nature to haul himself out of the hay to go stomping around in the snow and ice just to preserve a silly myth, but as time passed he took pride in the function of furry barometer. I know one woodchuck, personally, who hasn't been to bed all winter, just waiting for the photographers to show up.

But, like everything else these days, there is no security, no solid assurance that a job well done is a friend indeed. Just as the woodchucks get some wage-and-hours agreements, with portal-to-portal pay and overtime for blizzards, a bunch of scabs dive in and try to wreck the racket.

Year before last it was duck-billed platypuses. The platypus lobby planned a story that the honest American chuck was passe, and that spring wasn't imminent until the first platypus yawned and reached for a platter of mealworms. This is obviously as silly a platitude as the gag about one swallow not making a summer. I have documents to show that in the month of July, 1886, one swallow did make a summer. That was the year that all but one dissenting swallow decided to spend the whole season in Capistrano.

But I stray. First it was platypuses sniping at the woodchuck, and now it's the book beer lobby. They are circulating signed statements by zoo superintendents to the effect that groundhogs have absolutely no effect on the duration of winter, and that the real harbinger of spring is a smelly old billy goat. They go all the way back to the Germanic myth of the prancing William goat as a signal to knock the bung out of the first cask of beer, obviously a cheap merchandising dodge.

I say, leave the woodchuck alone. I firmly believe that if he does not see his shadow the winter is over, and he has worked hard, in the face of scientific meddling. To establish himself in his business, if we destroy his livelihood now, we reduce him to penury and an unbalanced diet of unwary dachshunds. Until the world has been made safe for groundhogs, everywhere, it is no world for me, and that goes for Mrs. Roosevelt, too. I thank you.

Powers

Baskets for Veterans

Powers, Mich.—Service baskets were delivered Wednesday evening to 22 veterans who are receiving treatment at Pinecrest Sanatorium. This service is extended to veterans through efforts of the local Legion Auxiliary and is received by Mrs. Theodore Fazer, rehabilitation chairman for the Powers unit, from the American Legion Hospital at Battle Creek.

Lions Meeting

The regular meeting of the North Menominee Lions club was held in Fleetwood's Inn, Spaulding, Monday evening.

Basketball

The first team, the Tigers, played a game with Cooks high school Wednesday evening. The game had been postponed for a week on account of road conditions caused by the severe snowstorm of the last week.

Births

Mr. and Mrs. Zigmund Sheski announce the birth of a daughter, in Marquette, on Sunday, Jan. 30. Mr. Sheski is an instructor in the high school and is also athletic coach.

Mr. and Mrs. Wesley Perket are parents of a son born in Iron Mountain hospital, Saturday, Jan. 23.

No Primary Election

Spaulding Township will hold no primary election on Feb. 21, owing to the fact that there is no opposition on either the "People's" ticket or the "Citizens, Taxpayers and Township" ticket.

Auxiliary Meeting

The regular meeting of the American Legion Auxiliary was held at the home of Mrs. Roy Harris, Tuesday evening. After the business session cards were played with prizes for winners.

Little Patricia, two year old daughter of Mr. and Mrs. Russell Sargent Jr., has been returned to her home from Marquette, where she was taken for observation, following brief illness.

Bride Honored

Mr. and Mrs. Donald Motto, whose marriage was solemnized in Escanaba recently were honor guests at a wedding shower in the Kell auditorium at Wilson Saturday evening. Friends and relatives attended and enjoyed a social evening and cards. Lunch was served, after which the couple displayed the array of gifts for their home.

Mrs. Motto is the former Lia

THE FARMER MAID—Pert Jacqueline Chartrand is featured as the farmer maid in the 4-H club number in the current Escanaba Ice Revue. Over 30 members of Delta County 4-H clubs are participating. In addition, the 4-H'ers helped with costumes and sets.

Mae Kell of Wilson.

Persons
Mrs. Art Eastberg of Menominee is visiting at the home of her parents, Mr. and Mrs. Earl Kell, Wilson.

Mr. and Mrs. Ed Bellefeuille visited Sunday with their daughter Miss Betty Ann, a polio patient in St. Luke's hospital, Marquette. Her condition is much improved.

Miss Mary Lou Mueller, home demonstration agent of Menominee spent Tuesday at the Loeffler home where she worked with a group of ladies who are making gloves in extension work.

Mrs. Wm. Betters has been hired as assistant to Miss Catherine Della Costa, the cook for the hot lunch project at the high school. Orlin Soland and Mr. Eisele of Norway were here Wednesday to

Cold Waves Stay In New Pattern

By ALTON L. BLAKESLEE
Associated Press Science Reporter

New York (AP)—This winter's unusual weather is like eating peanuts.

With peanuts, once you start it's hard to stop.

Weather often falls into the same kind of habit. Each cold wave tends to follow in the path of the previous ones. The new thing this year is that the first cold waves, in December, started on a different path than normal.

The new habit-path explains the severe, record-breaking cold spells in the west, and down into California and the Rio Grande Valley. It also explains the break easterners are getting in milder-than-normal winter, so far.

Our cold spells are born in Canada and the Arctic circle. Normally they move down into our northern states and swing eastward.

But this year they are taking a western twist, riding down into the plains states and the Rockies, and west of the Rockies.

This pattern of weather breeding the same kind of weather isn't unusual.

"It's one of the peculiarities of nature," explained Ernest Christie, meteorologist in charge of the New York city weather bureau office. "Once a sequence of wea-

ther has established itself, it tends to go on that way. It seems to set up a path, and repeat it time after time.

"This year there has been hardly a single cold wave which has swung down into the United States and over to the east. This is in contrast to last year when very many came direct from the Hudson Bay section into New York state and New England.

"How long the pattern will last, no one knows. There's no way yet of predicting or explaining why it happens. When we do learn why, then maybe we will be able to do some long-range forecasting."

The guess is that the weather will return to its old habits next year, and spare the west. But that can't be predicted either.

The eastern seaboard gets a break for two reasons. One is that the cold spells moderate before they move east. Secondly, when they're busy freezing up the west in their southward roll, warmer air moves in along the seaboard.

New York city in January had a mean temperature of 33.8 degrees, or 7.9 above normal. Precipitation was an inch or more above the normal.
